COMMENT DESCRIPTION:

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business.
Technician fe Date Processed MAR 17 2014

The wind farm and the OHIO Power Siting Board are both against the private ownership of property and the idea that we are born with natural rights. One of these rights is being able to own private property without the ability to defend it from encroachment.

If one person cannot have the right to property neither can another. This should scar everyone.

Wind farms are heavily subsidized by our government as the money offset by these dollars go off shore to foreign banks.

Ohio should be for Ohio.

Humbly Submitted,

Ed Rogers
