**Case No. 14-0138-EL-REN  
Kaden-Jeff-IN-PV-2.1kW Residence  
Staff Interrogatories – Initial Set**

Question 1: The array photo provided in Section G shows the installation in progress. Please provide a new array photo with all modules visible and in place.

Answer 1: The array only has 9 modules, not 10 modules. Please update the application to reflect this. This means the nameplate capacity for the system should also be changed from 2.1 kW to 1.89 kW. Since this is the case, the original array photo should suffice because all 9 modules are visible.

Please let me know if you have any further questions and thank you for your cooperation.

Best,

Anna Nocas  
Senior Associate  
Sol Systems, LLC
