**G.2. Please include a detailed description of how the output of the facility is going to be measured and verified, including the configuration of the meter(s) and the meter type(s).**

The output of the system is going to be measured by utilizing the meter(s) described in Section N. The reading will be recorded by the system owner, reported to Sol Systems, the Solar Renewable Energy Credit Aggregator for this system. Upon recordation by Sol Systems, the meter reading will be submitted for verification to the PJM Generation Attributes Tracking System. The meter will measure gross solar electricity output by the system.

**K.1 Enter the generation ID number you have been assigned by the tracking system:**

*(If the generation ID number has not yet been assigned, you will need to file this number in the PUCO Case Docket within 15 days of the facility receiving this number from the tracking system).*

This facility does not have a generation ID number assigned by the GATS.

Please let me know if you have any further questions and thank you for your cooperation.

Best,

Anna Nocas  
Senior Associate
