Re: Case Nos. 12-1842-, 11-6076-, & 07-1224-GA-EXM

Dear Ms. McNeal:

In its February 19, 2014 Finding and Order in the above-referenced cases, the Commission authorized The East Ohio Gas Company d/b/a Dominion East Ohio (DEO) to file tariffs reflecting new SSO and SCO rates. In accordance with these orders, please find attached clean and scored copies of DEO's affected tariffs that reflect the newly approved rates.

DEO would note that in reviewing its tariffs, it observed a minor, preexisting error in the header of tariff sheet B-SCO 2. During a tariff update on March 4, 2011, it appears that the header was not updated when this page of the tariff was revised. Specifically, "Second Revised Sheet" was not updated to read "Third Revised Sheet" and "Superseding First Sheet" was not updated to read "Superseding Second Revised Sheet." This effectively identified B-SCO 2 as being one version behind the actual version, and this carried forward into later tariffs.

In the attached tariffs, DEO has corrected the header reference to accurately reflect the fact that this is the Sixth Revised Sheet. But given that there was never a sheet identified as the Fifth Revised Sheet, DEO believed that it was most accurate to identify this sheet as "Superseding [the] Fourth Revised Sheet."

Please contact me if there are any questions.

Respectfully yours,

/s/ Andrew J. Campbell

Enclosures

Standard Choice Offer Commodity Service

1. Description

Standard Choice Offer (“SCO”) commodity service is provided by competitive retail natural gas (“CRNG”) suppliers participating in Dominion East Ohio’s (“East Ohio”) Energy Choice program pursuant to the June 18, 2008 Opinion and Order issued by the Public Utilities Commission of Ohio (“PUCO”) in Case No. 07-1224-GA-EXM. SCO commodity service is rendered in conjunction with East Ohio’s Energy Choice Transportation Service – Residential (“ECTS-R”) rate schedule.

2. Price

The price for SCO commodity service equals the New York Mercantile Exchange (“NYMEX”) settlement price for the prompt month natural gas contract on the final day of trading for each month plus a Retail Price Adjustment of \$0.43 per Mcf as approved by the February 19, 2014 Entry issued by the PUCO in Case Nos. 07-1224-GA-EXM, 11-6076-GA-EXM, and 12-1842-GA-EXM. The amount billed for SCO commodity service will also include the applicable Ohio sales and use tax for those Customers not exempted from the payment of that tax.

3. Applicability

Provided they are eligible to receive service under the ECTS-R rate schedule, SCO commodity service will be provided to the following Customers (“Choice-eligible Customers”):

- a) Customers assigned to a CRNG supplier in accordance with the February 18, 2014 auction conducted to establish SCO pricing and to determine suppliers for those Choice-eligible Customers receiving Standard Service Offer (“SSO”) or SCO commodity service as of the March 2014 billing period.
- b) New Customers assigned to a CRNG supplier after having received SSO service for up to two consecutive billing periods. New Customers include Customers (i) establishing service with East Ohio for the first time, (ii) relocating within East Ohio’s service territory and whose Energy Choice or government aggregation agreement is not portable, and (iii) restoring service more than ten days after being disconnected for non-payment.
- c) Customers assigned to a CRNG supplier after having received SSO service for up to two consecutive billing periods following termination of their opt-out governmental aggregation program.

- d) Customers assigned to a CRNG supplier after having received SSO service for up to two consecutive billing periods following termination of their Energy Choice or opt-in governmental aggregation program only if such Customers elect to be assigned to SCO commodity service; otherwise, such Customers shall be assigned to a CRNG supplier that has agreed to accept Customers at the supplier's posted monthly variable rate ("MVR").

4. Other Terms and Conditions

- 4.1 SCO commodity service will be billed by East Ohio in conjunction with charges for service under the ECTS-R rate schedule.
- 4.2 Customers may cease receiving SCO commodity service at any time at no additional charge from East Ohio or the SCO supplier by enrolling with a CRNG supplier in accordance with standard Energy Choice enrollment provisions or participating in an opt-out governmental aggregation program.
- 4.3 Customers assigned to SCO commodity service may not select their SCO supplier. SCO commodity service shall be provided by the Customer's assigned CRNG supplier through the March 2015 billing period unless the Customer enrolls with a CRNG supplier, participates in an opt-out governmental aggregation program, or becomes ineligible to receive SCO commodity service prior to the March 2015 billing period.
- 4.4 In the event of a supplier default that would cause the aggregate annualized volume assigned to SCO suppliers to be more than 50% above the level assigned in the February 18, 2014 auction, East Ohio shall solicit volunteers from non-defaulting SCO suppliers to serve the defaulted load through the March 2015 billing period at the price established in that auction. If non-defaulting SCO suppliers agree to serve the defaulted load under those terms, East Ohio shall assign the Customers previously served by the defaulting supplier that have not already selected another CRNG supplier or enrolled in a governmental aggregation program to non-defaulting SCO suppliers in proportion to the SCO load each serves at the time of the assignment. If a proportionate assignment does not accommodate assignment of the entire load, East Ohio may utilize another basis provided assignments are made in a non-discriminatory manner approved by PUCO Staff. In the event non-defaulting SCO suppliers do not voluntarily agree to serve the entire defaulted load under the terms described in this section, East Ohio shall conduct a supplemental auction under the supervision of PUCO Staff for the volume that had been served by the defaulting supplier. East Ohio shall assign Customers as ordered by the PUCO in its decision regarding the results of the supplemental auction.

Standard Choice Offer Gas Rate

A standard choice offer gas cost rate of \$5.014 per Mcf shall be applied effective with bills rendered for billing cycles commencing on or after April 14, 2014 to all volumes purchased and received under the following East Ohio rate schedule:

Standard Choice Offer Commodity Service (SCO)

Standard Service Offer Gas Cost Rate

A standard service offer gas cost rate of \$5.014 per Mcf shall be applied effective with bills rendered for billing cycles commencing on or after April 14, 2014, to all volumes purchased and received under the following East Ohio rate schedules:

General Sales Service – Residential Rate Schedule (GSS-R)
General Sales Service – Nonresidential Rate Schedule (GSS-NR)
Large Volume General Sales Service Rate Schedule (LVGSS)
