

The Public Utilities Commission of Ohio

CERTIFICATION FILING INSTRUCTIONS COMPETITIVE RETAIL NATURAL GAS BROKERS / AGGREGATORS

- Where to File: Applications should be sent to: Public Utilities Commission of Ohio (PUCO or Commission), Docketing Division, 180 East Broad Street, Columbus Ohio 43215-3793.
- II. What to File: Applicant must submit one original notarized application signed by a principal officer and three copies, including all exhibits, affidavits, and other attachments. All attachments, affidavits, and exhibits should be clearly identified. For example, Exhibit A-15 should be marked "Exhibit A-15 Corporate Structure." All pages should be numbered and attached in a sequential order.
 - III. Which Forms to File: Entities, other than governmental aggregators, that will aggregate customers or suppliers to provide competitive retail natural gas services must file a "Certification Application for Retail Natural Gas Brokers/Aggregators" form. Governmental aggregators must file a "Certification Application for Governmental Aggregators" form and retail natural gas suppliers must file a "Certification Application for Retail Natural Gas Suppliers" form. If a broker/aggregator will provide competitive retail natural gas marketer services, in addition to broker and aggregator services, it must file a "Certification Application for Retail Natural Gas Suppliers" form. Checkboxes are provided on the form to indicate desired status.

A summary of Competitive Retail Natural Gas Service (CRNGS) definitions (from the Commission's certification rules) is provided below to help applicants determine which application form to use. Three separate application forms are provided, one each for the following services.

- Competitive Retail Natural Gas Supplier (Marketer, Broker, Aggregator)
- Competitive Retail Natural Gas Broker/Aggregator
- Ohio Natural Gas Governmental Aggregator

IV. Certified Entity Service Definitions:

Competitive Retail Natural Gas Service - any retail natural gas service that may be competitively offered to consumers in this state.

Competitive Retail Natural Gas Supplier - a person that is engaged in a for-profit or notfor-profit basis in the business of supplying or arranging for the supply of a CRNGS to consumers in this state that are not mercantile customers. "Retail natural gas supplier" includes a marketer, broker, or aggregator, but excludes a natural gas company, a governmental aggregator, a billing or collection agent, and a producer or gatherer of gas that is not a natural gas company. <u>Competitive Retail Natural Gas Marketing Service</u> – assuming the contractual and legal responsibility for the sale and provision of CRNGS to a retail natural gas customer in this state and having title to natural gas at some point during the transaction.

<u>Competitive Retail Natural Gas Brokerage Service</u> – assuming the contractual and legal responsibility for the sale and/or arrangement for the supply of CRNGS to a retail customer in this state without taking title to the natural gas.

<u>Competitive Retail Natural Gas Broker</u> - a person who provides retail natural gas brokerage service.

<u>Competitive Retail Natural Gas Aggregation Service</u> - combining the natural gas load of multiple retail residential customers or small commercial customers via an agreement with the customers for the purpose of purchasing retail natural gas service on an aggregated basis.

<u>Competitive Retail Natural Gus Aggregator</u> - a person who contracts with customers to combine the customers' natural gas load for the purposes of purchasing CRNGS on an aggregated basis.

Natural Gas Governmental Aggregator - The legislative authority of a municipal corporation, the board of township trustees, or a board of county commissioners acting exclusively under Section 4929.26 or 4929.27 of the Revised Code as an aggregator for the provision of CRNGS. For the purposes of this definition, "governmental aggregator" specifically excludes a municipal corporation acting exclusively under Section 4 of Article XVIII, Ohio Constitution, as an aggregator for the provision of CRNGS.

- V. Application Form: The application form is available on the PUCO Web site, www.puco.Ohio.gov or directly from the Commission located at: Public Utilities Commission of Ohio, Docketing Division, 180 East Broad Street, Columbus, Ohio 43215-3793.
- VI. Confidentiality: If any of an applicant's answers require the applicant to disclose what the applicant believes to be privileged or confidential information not otherwise available to the public, the applicant should designate at each point in the application that the answer requires the applicant to disclose privileged and confidential information. Applicant must still provide that privileged and confidential information (separately filed and appropriately marked). Applicant must fully support any request to maintain the confidentiality of the information it believes to be confidential or proprietary in a motion for protective order, filed pursuant to Rule 4901:1-1-24 of the Ohio Administrative Code.
- VII. Commission Process for Certification Approval: An application for certification shall be made on forms approved and supplied by the Commission. The applicant shall complete the appropriate application form in its entirety and supply all required attachments, affidavits, and evidence of capability specified by the form at the time an application is filed. The Commission certification process begins when the Commission's Docketing Division receives and time/date stamps the application. An incomplete application may be suspended or rejected. An application that has been suspended as incomplete will cause delay in certification.

The Commission may approve, suspend, or deny an application within 30 days. If the Commission does not act within 30 days, the application is deemed automatically approved on the 31st day after the official filing date. If the Commission suspends the application, the Commission shall notify the applicant of the reasons for such suspension and may direct the applicant to furnish additional information. The Commission shall act to approve or deny a suspended application within 90 days of the date that the application was suspended. Upon Commission approval, the applicant shall receive notification of approval and a numbered certificate that specifies the service(s) for which the applicant is certified and the dates for which the certificate is valid.

Unless otherwise specified by the Commission, a retail natural gas broker/aggregator's certificate is valid for a period of two years, beginning and ending on the dates specified on the certificate. The applicant may renew its certificate in accordance with Rule 4901:1-27-09 of the Ohio Administrative Code.

Retail natural gas brokers/aggregators shall inform the Commission of any material change to the information supplied in a certification application within thirty (30) days of such material change in accordance with Rule 4901:1-27-10 of the Ohio Administrative Code.

- VIII. Contractual Arrangements for Capability Standards: If the applicant is relying upon contractual arrangements with a third-party, to meet any of the certification requirements, the applicant must provide with its application all of the following:
 - The legal name of any contracted entity;
 - A statement that a valid contract exists between the applicant and the third-party;
 - A detailed summary of the contract(s), including all services provided thereunder; and
 - The documentation and evidence to demonstrate the contracting entity's capability to meet the requirements as if the contracting entity was the applicant.
- IX. Governing Law: The certification of retail natural gas brokers/aggregators is governed by Chapter 4901:1-27 and 4901:1-29 of the Ohio Administrative Code, and Section 4929.20 of the Ohio Revised Code.

Exhibit A-16 Company History

Energy Alliances, Inc. was founded in 1986.

Our mission: to save our clients "energy dollars."

Our early business involved commercial energy audits and utility bill analysis. Our experience includes brokering, managing and owning apartments and hotels, real estate appraisal, industrial process management, restaurants, construction management and architectural engineering. We combined this expertise to solve difficult energy issues.

In the mid 1980s, Spence Faxon, President, was appointed to the City of Cincinnati's Mayor's Energy Task Force. Soon we would be chosen by the local utility as its chief Energy Auditor for its Non-Profit Energy Management Program or NEMP, performing energy audits for over ten years via People Working Cooperatively (PWC). We were among the pioneers in the energy industry introducing the concept of energy management to the property management industry. Our approach saved our clients millions of their energy dollars through high impact, low and no-cost improvements and employee education. We followed up with a careful application and understanding of the rules established by the Utility.

As the energy market matured, EAI marketed natural gas as an agent for Consolidated Fuel Corp. throughout the Chicago. We joined others at the negotiating table in Columbus, Ohio in the early 1990s where we helped shape the Firm Transport program on CG&E's system, now Duke Energy, always focusing on the client. Our portfolio includes:

- Thousands of energy audits & utility rate structure evaluations
- More than a decade of utility supply consulting as an agent for various entities.
- Utility cost Savings

In 1994 we officially entered CG&E's Firm Transport program and have been a leader in the program to this day currently serving as a sales agent for Integrys Energy Services, Inc., Green Bay WI. http://www.integrysenergy.com/ in Ohio.

Energy Alliances, Inc. has remained in good standing in Ohio and with Duke Energy and the PUCO.

Exhibit B-2 Experience & Plans

Energy Alliances, Inc. began marketing natural gas to commercial and industrial customer in Illinois on the Peoples Gas Light & Coke Co. and Northern Illinois Gas systems in 1998. Shortly thereafter, EAI became involved and was a key player in the Firm Transport (FT) tariff negotiations for deregulation on CG&E's system. We began gas flow on CG&E's system in September 1994 at the very start of the FT program and have maintained one of the largest aggregate loads on the system. EAI now serves 15 communities on natural gas and 4 on the Duke system through Community Aggregation programs and 2 in Northern Ohio on Columbia of Ohio since November 2007.

Energy Alliances, Inc. provides services to residential (through aggregation), commercial, mercantile and industrial customers. We establish a working relationship with the client, review the client's utility history and provide the client options as well as a suggested strategy for lowering its energy costs while managing its exposure to risk. The managing partners of Energy Alliances, Inc. answer customer inquiries personally. The company is staffed by the original founding members. We have a highly experienced Data Department Manager who has been with the company for over 21 years.

Energy Alliances, Inc. is a broker not a supplier. Energy Alliances, Inc. will not be billing customers but customer service is available through established channels with the supplier as well as our company to ensure the customer's understanding and facilitate complaint resolution in accordance with Commission rules adopted pursuant to Section 4929.22 of the Revised Code and contained in Chapter 4909:1-29 of the Ohio Administrative Code.

Exhibit B-3 Summary of Experience

Energy Alliances, Inc. was founded in December, 1985 and incorporated in the State of Ohio in May, 1986 and has remained in good standing in the State of Ohio, Illinois and other areas.

Currently, Energy Alliances, Inc. has residential commercial, mercantile and industrial clients throughout the Duke Energy system in OH and serves 15 communities through natural gas aggregation and 4 on electric aggregation in Southern Ohio on Duke Energy and 2 communities in Northern Ohio on Dominion East Ohio Gas. We currently serve 1,750 commercial electric customers on Duke's system.

Energy Alliances, Inc. began marketing natural gas to commercial and industrial customer in Illinois on the Peoples Gas Light & Coke Co. and Northern Illinois Gas systems in 1998. Shortly thereafter, EAI became involved and was a key player in the Firm Transport (FT) tariff negotiations for deregulation on CG&E's system. We began gas flow on CG&E's system in September 1994 at the very start of the FT program and have maintained one of the largest aggregate loads on the system.

Energy Alliances, Inc. has received no customer complaints and no unresolved complaints with its customers through its affiliates.
