

timely manner. The Township will file its renewal application on April 3, 2014. While the Commission considers the renewal, the Township requests an extension of the expiration date of its certificate from April 21, 2014, to May 5, 2014, to allow for the thirty day review period from the April 3, 2014, renewal application filing date.

The Township's request for an extension is reasonable under the circumstances and should be granted. Should the Township's ability to provide aggregation services expire on April 21, 2014, the Township's aggregation participants would be at a disadvantage in that they would not be able to receive the most competitive electric rate. Although the renewal application was not filed within the 30-60 day window as set forth in Rule 4901:1-24-09 (A), in substance there have been no material changes in the Township's operation of its aggregation program. The Township has done nothing that would warrant suspension or rescission of its authority. An extension would allow the Township to obtain renewal of its certificate without causing inconvenience to its participants. The Township respectfully submits that an extension of its certificate expiration date is in the public interest.

Wherefore, FirstEnergy Solutions Corp on behalf of St. Clair Township respectfully urges the Commission to grant the extension.

Respectfully submitted,

/s/ Jacob A. McDermott
