INDEX \_ \_ \_ OCC Exhibit Identified A Direct Testimony of Gregory S. Campbell, CPA A1 Corrected Schedules D-1 and D-3 б - - -

1 GREG CAMPBELL, CPA being by me first duly sworn, as hereinafter 2 certified, deposes and says as follows: 3 4 CROSS-EXAMINATION By Ms. Yost: 5 б Q. Good morning, Mr. Campbell. 7 Α. Good morning. We previously met. I'm Melissa Yost. 8 Q. 9 I'm Deputy Consumers' Counsel with the Office of Ohio 10 Consumers' Counsel. You have a very large notebook with you 11 12 today. Before we go through that I want to just talk 13 to you a little bit. Could you please -- well, for 14 the record this deposition is being taken by notice. 15 Could you please state your full name and 16 residential address for the record. 17 It's Gregory Scott Campbell and my Α. business and living address is 3426 Sasse, S-A-S-S-E, 18 19 Way, W-A-Y, Louisville, Kentucky. 20 MR. SHARKEY: And, Melissa, I apologize. I meant to do this before we went on the record. 21 22 Mr. Campbell had some very small changes, makes some very small changes to some of his numbers in one of 23 24 his schedules. It's Schedule D-1 and D-3. I think 25 you'll find they're not material but there is a copy

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 of the new D-1 and D-3 schedules.

2 MS. YOST: Can I get another one for the exhibit? 3 4 (EXHIBIT MARKED FOR IDENTIFICATION.) 5 Q. Have you been deposed before? б Α. Yes, I have. 7 Q. How many times? Just a ballpark if it's 8 been a lot. 9 Α. It's been a lot. 10 Okay. So, you know -- you understand the ο. process. I am going to ask you a series of 11 12 questions. You're under oath. I ask that you make 13 all your responses verbal for the convenience of the 14 court reporter, okay? A. Yes, I understand that. 15 16 If you do not understand a question I Ο. ask, please ask me to clarify or repeat the question 17 because if you do give an answer, it will be assumed 18 19 that you understood the question; is that okay? Yes, I will do that. 20 Α. And both you and I need to make sure we 21 Q. 22 don't talk at the same time. The court reporter can 23 only transcribe one person's statement at a time, 24 okay? 25 Α. Yes.

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

б

1 Q. And if you need to take a break, please let me know. I just ask there not be any pending 2 answers when you do request to take a break, okay? 3 4 Α. That would be fine. Is there anything today that could 5 Ο. inhibit your ability to recollect or to tell the б 7 truth? 8 The ability to recollect, with the Α. 9 passage of time since we did the original filing which was in December of '12, but in terms of telling 10 the truth, no, there is not. 11 That is a fair statement. I can 12 Ο. 13 appreciate that. You stated before you have been 14 deposed many times. Were those in regard to utility matters mostly? 15 16 Utility matters either related to rate Α. cases or legal proceedings. 17 18 Q. Legal proceedings where you were an 19 expert? 20 Α. Legal proceedings where I was an expert in my former company and the case involved different 21 22 numbers or accounting or things like that. 23 The former company being American Ο. 24 Electric Power; is that correct? 25 A. American Electric Power or its

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

8 1 subsidiaries which also included the American Electric Power Service combination. 2 3 Q. So --4 Α. And I said combination, but I think I 5 meant to say company. б Q. Okay. Thank you. You are an accountant, 7 correct? 8 Α. Yes, I am. 9 And you are a certified public Q. 10 accountant. A. Yes, I am. 11 12 Q. And you recently retired, but it seems 13 like it was short lived. 14 Α. That is correct. 15 Q. When did you retire from the Dayton Power 16 and Light Company? 17 Α. At the end of August of '13. And you indicated that your residential 18 Q. 19 address and business address was the same. Are you 20 working in other capacities other than your testimony 21 here today? 22 A. Yes, I am. What kind of work are you doing? 23 Ο. 24 Α. I am doing consulting work for DPL, Inc., 25 the parent company of Dayton Power & Light; and in

addition I'm doing other work, nonregulatory work,
 with DP&L.

Q. So this is not a one-time thing then.
A. It is not.

5 Q. But you are not receiving a salary from6 Dayton Power and Light, correct?

7 Α. Let me answer that and then you can see 8 whether it's the correct question. I'm still getting 9 payments from my old salary because I had worked a 10 number of years, and when I left, they continued -are still continuing to pay my salary through 11 12 February of 2014 because of the severance 13 arrangements that they had with me. So it's still a 14 salary, but I am not in the same job I had in August of 2013 and prior. 15

Q. That's fully understood. And after your severance pay ends in February, if there's any work for you to do on this case, will you be compensated at an hourly rate?

A. Well, let me further explain in addition to the salary, I'm also under a consulting contract where I get paid so much an hour. The severance arrangements were whether I did or did not do any work for the company, but I have a separate consulting arrangement with the company that also

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 runs through February of 2014.

2 So you are being paid for your time today Ο. 3 under the consulting arrangement that you have. 4 Α. That is correct. 5 Q. And that consulting arrangement is not just limited to this case; is that fair to say? б 7 Α. That's correct. Q. You talked a little bit on page 2 of your 8 9 testimony -- let's mark that as an exhibit before we move on. Do you have a copy of it? 10 A. Can I interrupt you for a minute and ask 11 12 a question? 13 ο. Sure. 14 Α. I had a couple of minor changes to the 15 very beginning of my testimony. Before we mark it 16 should I make the changes? 17 MS. YOST: Why don't we go off the record 18 and give you a few minutes to talk? 19 MR. SHARKEY: No. If you have changes, did you want -- why don't you ask him the question do 20 you have any changes? And then he can give it to 21 22 you. MS. YOST: Sure. 23 24 Α. That would be fine. I just didn't want 25 you to think we didn't have any changes.

11 1 Ο. Well, let's start -- let me get an opportunity here to have your testimony marked as OCC 2 3 Exhibit A. MS. YOST: Did we do that? 4 THE NOTARY: No. We marked that A. 5 MS. YOST: Oh. Can I make this A-1 and б 7 the testimony A? 8 THE NOTARY: Yes. 9 ο. I just had copies of your testimony. 10 (EXHIBIT MARKED FOR IDENTIFICATION.) Mr. Campbell, I know you have your 11 Q. testimony there, we can talk about it; but, first, I 12 13 wanted to go through the documents that you have brought with you today. Could you identify what 14 you've brought with you. 15 16 Α. Certainly. 17 Q. Thank you. I brought a copy of 18 Code of Federal 18 Α. 19 Regulations Parts 1 to 39 which has included in it 20 what I call the Federal Energy Regulatory Commission 21 (F-E-R-C) which is the FERC chart of accounts or uniform system of accounts. So I have that with me. 22 23 I have a number of data requests and responses from 24 parties in this proceeding. I have the filing made 25 by Dayton Power and Light related to the recovery of

1 the storm restoration costs in Case No.

2	12-3062-EL-RDR and Case No. 12-3266-EL-AAM. I have
3	the supplemental testimony in the same two cases of
4	Dona Seger-Lawson. I have the electric security plan
5	rebuttal testimony of Dona Seger-Lawson from Case No.
б	12-426-EL-SSO and E-L-S-S-O are all in capitals. And
7	there are four other cases associated with that.
8	I have the supplemental testimony of
9	Bryce Nickel on the storm damage recovery cases that
10	we had just talked about. I have the direct
11	testimony of Mike excuse me, Michael Barrett in
12	the storm damage recovery requests that we had talked
13	about associated with the 2012 derecho,
14	D-E-R-E-C-H-O, deferrals. It's Case No.
15	12-2281-EL-AAM. I have the original derecho deferral
16	request in that same proceeding. I have the revised
17	derecho deferral request. And I have the Commission
18	order on that.
19	I also have in that same case Dayton
20	Power and Light's application for rehearing and the
21	entry on the rehearing associated with the 2008 Ike
22	hurricane and other storms which are Case No.
23	08-1332-EL-AAM. I have the application for the
24	authority for modifying the accounting. I have the
25	deferral order on that same case.

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

13 1 I have a couple of things I got from the internet related to the Internal Revenue Code Section 2 162, the Internal Revenue Code Section 263A. And 3 4 then I have another thing from the internet from 5 taxohio.gov which relates to property taxes on б property within the state of Ohio. 7 I have the PUCO staff audit report in 8 Case No. 12-3062-EL-RDR and also is Case No. 9 12-3266-EL-AAM. I have comments from the Office of the Ohio Consumers' Counsel in Case No. 10 12-2281-EL-AAM. I have just some handwritten notes 11 12 on my work history and then the spellings of some 13 names that might come up in the case. 14 That's all I brought with me. 15 Q. Thank you, sir. Did you rely on that information that you've just described in developing 16 your testimony in this case? 17 Well, in developing my testimony I would 18 Α. have used additional information, the accounting 19 records of the company, I believe I was in quite a 20 number of meetings prior to the filing of the 21 22 testimony, and I would have also been relying on what I had read before of other utilities' filings in 23 24 Ohio, or just my own background in the utility 25 ratemaking business.

1 MS. YOST: Jeff, just to confirm 2 Mr. Campbell is also the witness in regard to the request for company witness with knowledge of storm 3 4 reserve accounts; is that correct? MR. SHARKEY: He is the person that we 5 б have designated to respond to that topic, yes. 7 MS. YOST: Thank you. Mr. Campbell, and please feel free to 8 Q. 9 call me Melissa, we've marked your testimony that was 10 filed in the -- in this case with the application as OCC Exhibit A. Do you have a copy of it with you? 11 12 Α. Yes, I do. 13 And it's okay if you want to refer to Ο. 14 your own copy, this is just one for the court 15 reporter, whichever you would prefer. Would you like to use your own copy or this one? 16 17 Let me just see if they are the same. Α. Oh, absolutely. 18 Q. 19 Yes, I believe they are the same. Α. 20 Ο. And would you like to just refer to your 21 own copy? Yes, please. 22 Α. 23 And in addition to your testimony today Ο. 24 counsel for the company has handed me a document that 25 now has been marked as OCC Exhibit A1. And you have

1 a copy of that document, sir?

2 A. Yes, I do.

3 Q. And could you describe what this document4 is, A1.

5 A. OCC Exhibit Al are two schedules that 6 were in the original company filing that was made in 7 December of '12 that we have made some adjustments to 8 or changes because we found an error in one of the 9 tables after the application was filed.

Q. Okay. Thank you. We will talk about what changes have been made; but, first, I would like to direct your -- direct you to your testimony. I know I've been told you have some corrections to your testimony which is OCC Exhibit A. Could you walk us through those corrections, please.

A. Yes, I can. On page 1 of 10 of my
testimony, the third line, the second sentence reads
"My business address is." I would like to strike
what I have there and put "3426 Sasse Way,
Louisville, Kentucky 40245," so the second sentence
would now read "My business address is 3426 Sasse
Way, Louisville, Kentucky 40245."

23 On that same page on line 7, I would 24 strike that entire line and replace that with "a 25 consultant" so that sentence on lines 6 and 7 would

say "I'm employed by the Dayton Power and Light
 Company as a consultant."

On line 9 of that same page, "I assumed 3 my present position," and I would like to strike the 4 last two words there and replace that with "September 5 2013" where it would now read "I assumed my present б 7 position in September 2013." 8 And then I would like to add a new 9 sentence "from July 2012 through August" --10 Would you hold on? I'm sorry. From Ο. July? 11 12 "From July 2012 through August 2013, I Α. 13 was the vice president and controller of DP&L." 14 Q. Thank you. On the same page, 1 of 10, on lines 13 15 Α. 16 through 16, I would like to strike the question and 17 answer. On page 2, line 11, since this case was 18 19 filed in December of 2012, we filed another case 20 since then, and I would like to add a sentence saying "I also sponsored testimony in DP&L Case No. 21

22 13-1495-EL-UNC."

That's the only changes I have to the written testimony but I do have the changes on these exhibits, if you would want me to go through those

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 now or later. So your choice.

2	Q. We can do the exhibits now. Let me
3	get which is the changes that are are there
4	changes beyond what is reflected in OCC Exhibit A1?
5	A. No, ma'am.
б	Q. Okay. Let me get to that exhibit.
7	A. I said they're Exhibit A1, but they're
8	schedules.
9	Q. Yes, I'm sorry. I meant I need to find
10	the original schedules.
11	MR. SHARKEY: Just so we're clear she is
12	referring to OCC Exhibit A1. They are Schedules D-1
13	and D-3.
14	THE WITNESS: Correct.
15	Q. Okay. Could you please identify the
16	change you made to company Schedule D-1, page 1 of 1.
17	A. Schedule D-1 subsequent to the filing
18	of the application we discovered a small error on
19	Schedule D-3 that changes the overall long-term debt
20	rate on Schedule D-3 which is carrying forward to
21	Schedule D-1. So the debt rate on line 1, column
22	(E), should be 5.56 percent versus the 5.38 percent
23	that was originally prepared.
24	
	This causes the overall rate of return on

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

18 1 the original application. And in that same column on line 1 causes the number to be 2.14 percent instead 2 of 2.08 percent. 3 4 Q. I'm sorry. Could you just -- what was the last thing? It was the 2.? 5 0n -б Α. 7 Q. Oh ---- column (F), line 1, the number that 8 Α. 9 used to be 2.08 percent on the weighted cost of 10 long-term debt, it was 2.08, it's now 2.14, and that's what should have been originally filed. 11 12 MR. SHARKEY: Can I interject, Greg? I 13 think you said in column (F), in row 4, Total 14 Capital, No. 9.1. 15 THE WITNESS: 9.01, excuse me. 16 MS. YOST: Can we go off the record? 17 (Discussion off the record.) Okay. Sorry, Mr. Campbell, back on the 18 Q. record. In regard to --19 20 Α. Can I continue with my changes? Absolutely, yeah. Page -- the next page 21 Q. of Exhibit OCC --22 I am still on D-1. 23 Α. 24 Q. Oh, D-1, sorry. Go ahead. The cost of long-term debt and weighted 25 Α.

average cost of capital are only used prospectively
in the filing. These changes do not affect the
applicable revenue requirement rates or typical bills
proposed for the initial timeframe that we had done
the filing which was March of 2013 to February of
2014 because those numbers were based on historical
costs.

8 So moving to --

9 Q. Just to clarify the only changes were10 three numbers on Schedule D-1, right?

11 A. That is correct.

12 Q. Thank you.

13 Schedule D-3 the error we had here, the Α. 14 column (B), the descriptions had shifted up one line. So the first line that's on line 3 was showing the 15 16 wrong description. So we had to take the original item that was on line 3 and move it to line 4. So if 17 you go back to the original filing, you'll see FMB 18 19 5.125 percent series on line 3. That should have 20 been on line 4 and sequentially all the other ones 21 would get pushed down. And the one that's on line 3 now was left off. So line 3 today or the correct 22 23 version shows FMB first mortgage bonds 10.70 percent 24 series. So all the descriptions there on lines 3 25 through 17 inclusive have changed by shifting

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 downward to be the correct debt description.

2	In a similar manner on lines 37 excuse
3	me, not 37, on line 38 we had to change the
4	description of the lines, the pollution control bonds
5	that we were removing, so it should read now we
б	had to change the descriptions. It's reading now 7,
7	8, 9, 16, and 17 to pick up the ones that actually
8	say pollution control bonds on them.
9	And then the latter part of line 38 says
10	7, 8, 9, 16, and 17 to be the pollution control
11	bonds. By changing those it causes the number in
12	line 31 column (K) to change from 5.38 percent to
13	5.56 percent. And then this 5.56 percent carries
14	forward to Schedule D-1.
15	That's the only changes so really just
16	the descriptions in column (B), the line 38,
17	identifying the pollution control bonds that were
18	taken out and then the effect that the adjusted or
19	corrected bonds on line 31, column (K).
20	Q. Thank you.
21	A. That's all the changes I have.
22	Q. Thank you. Page 2 of your testimony you
23	indicate that wait until you get there, line 8,
24	that you previously provided testimony before the
25	Public Utilities Commission of Ohio and then you go

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

on to say, yes, you've sponsored testimony and you 1 listed three cases there. The 08-1094 case, did you 2 physically testify in that case meaning take the 3 4 stand under oath? A. I do not recall specifically. 5 б That case was settled, if you do recall. Q. 7 Α. But it also had a fuel component in it. Q. 8 Okay. A. I don't believe I took the stand, but I 9 don't know with the passage of time. 10 Q. What about in the '09 case, 256 that you 11 12 have listed, do you know if you? 13 A. That one I did not take the witness 14 stand. 15 Q. Okay. And then in the next case, 16 11-57 -- 11-5730? 17 A. I don't believe I took the witness stand 18 in that. 19 Q. Okay. And then you had added a line in regard to Case 13-1495. That case hasn't went to 20 21 hearing yet, has it? 22 A. Well, that's the significantly excessive earnings test case. 23 24 Q. Yes. 25 A. So I believe there's a settlement

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

agreement that is pending a Commission decision last
 I looked, but I haven't looked within the last couple
 of weeks.

4 Q. Do you recall that case is about the 5 company's earnings for 2012; is that fair?

6 A. It was a SEET filing in 2013 with the 7 test year or the year of review of calendar year 8 2012.

9 And do you know what the company's ROE Ο. was in 2012 from your experience in that case? 10 It was in my testimony that I filed, but 11 Α. 12 I don't recall offhand. We did make an adjustment, 13 at least one adjustment, that was fairly major on 14 that to remove a writeoff of some assets or 15 write-down is, I guess, the technically more correct 16 phrase.

Q. Okay. And I know it's been a while, and if you can just answer these to the best of your ability, but did you draft this testimony, sir?

20 A. Yes, I did.

21 Q. Did anyone assist you in the drafting of 22 the testimony?

A. I don't believe they assisted me in the
initial drafting of it, but they -- a number of
people assisted in reviewing it for me.

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

23 1 0. And excluding attorneys, who -- who reviewed your draft testimony? 2 Please give me a minute. 3 Α. 4 Q. Sure. I can think of a number of people that I 5 Α. can remember but there may be others that I have б 7 forgotten. Tony Cloud; Don Rennix, R-E-N-N-I-X, and 8 his first name is Don, D-O-N; Emily Rabb, R-A-B-B; 9 and Dona Seger-Lawson. 10 And with your most recent position with Ο. DP&L, who did you report to? 11 12 Α. When you say my most recent position, do 13 you mean the one before the position I have today? 14 Q. Exactly. I reported to Craig Jackson. 15 Α. 16 Ο. And did you supervise any staff? Yes, I did. 17 Α. Who did you supervise? 18 Q. 19 I supervised directly Don Rennix; Lynn, Α. L-Y-N-N, Striker; Nancy McFarland; Tony Cloud; Jarrod 20 Hoying, and Karin, K-A-R-I-N, Nyhuis, N-Y-H-U-I-S. 21 22 Were they all part of a division of DP&L Ο. 23 in regard to accounting? 24 Α. I was in charge of the accounting 25 department, and they were all employees of mine

1 within the accounting department.

2 Q. Thank you. Are they all accountants?3 A. Yes.

Q. Thank you. On page 2 of 10 at the bottom of your testimony, there's a question that asks "What Schedules are you supporting?" And you list certain schedules. Are you still supporting all of those schedules in this proceeding?

9 A. Give me a moment to confirm.

10 Q. Absolutely.

11 A. Yes, I am still supporting all of those12 schedules.

13 Thank you. On page 3 of your testimony, Ο. 14 sir, under the section on line 1 it says "Methodology" and question "What is the information 15 16 included on the Schedules that you are sponsoring?" Fair to say most of the schedules and workpapers that 17 you are sponsoring are in regard to capital expenses? 18 19 Most of them are related to rate base of Α. 20 which capital expenditures are one component of rate 21 base.

Q. And you are aware in this proceeding the company is seeking both collection -- collection of costs from customers in regard to storm expenses that are O&M expenses and capital expenses; is that your

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

## 1 understanding?

10

2 My understanding is the company is Α. 3 seeking both prudently incurred O&M expenses and 4 prudently incurred returns on the capital expenses 5 and depreciation and associated property taxes and et cetera with them. б 7 Q. We were going through the list of 8 items -- or documents you had in your notebook. Go 9 back and check my notes but did you -- were you aware

11 Commission stated the following language: "The 12 Commission finds" -- and I can hand this to you, sir, 13 afterwards, "The Commission finds that DP&L's request 14 to recover capital expenditures from customers as a 15 result of storm restoration efforts should be 16 denied." Were you aware? And it starts right there 17 and take your time. You can look at it.

that in an October 23, 2013, entry that the

18 A. I have read this before.

19 Q. Thank you. And is it your understanding 20 that you will be testifying in this proceeding in 21 regard to the company's request to recover capital 22 expenditures from customers as a result of storm 23 restoration efforts?

A. The carrying cost, depreciation, propertytax associated with capital cost, yes, it's my

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

understanding and my testimony that's already been
filed that I -- we are requesting that and believe
it's prudently incurred costs that ought to be
allowed and was previously allowed to Dayton Power
and Light associated with the 2004-2005 storm -- I
said storm but it should be storms because there was
more than one.

8 Q. Thank you. I want to expedite this as 9 much as possible. In regard to the schedules that 10 you are sponsoring, they seem to be listed on pages 3 and 4 of your testimony, sir. If you could identify 11 12 which schedules have no effect on the operation and 13 maintenance expenses and carrying charges that the 14 company seeks to collect from customers in this 15 proceeding. So to put it another way, if you can 16 identify which schedules that you are sponsoring 17 would not be needed if the company was just coming in 18 and requesting O&M expenses and associated carrying 19 costs.

20 A. Part of Schedule A-4 would not be needed 21 for a filing that would have just requested recovery 22 of prudently incurred O&M expenses and carrying 23 costs.

24 Q. If I could just stop you right there so I 25 can catch up. And if you could identify what part of

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 A-4 would not be needed if the company was just seeking O&M costs and related expenses. 2 Column (C) in Schedule A-4 has to do with 3 Α. 4 a gross revenue conversion factor that is really related to rate base so that would not be needed for 5 the O&M. б 7 Ο. The entire --And then by contrast column (D) would be 8 Α. 9 needed for the O&M request because this is the gross 10 up for bad debts and CAT tax that's needed for recovering O&M expenses. 11 When you said column 4, what do you mean? 12 Q. 13 Actually if I said column 4, I meant to Α. say column (D). Excuse me. 14 15 Column (D) is needed. Q. 16 Α. Correct. 17 And which column is not needed for O&M? Q. Not needed for O&M is column (C). Column 18 Α. (C) is related to rate base or capital-related costs. 19 20 Q. Thank you. Anything else on that 21 schedule? 22 No. Schedule B-2 is the rate base so Α. that would not be needed for only O&M and carrying 23 24 cost request. 25 Q. Thank you.

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

A. Schedule B-3 is the plant in service,
 that would not be needed for an O&M and carrying cost
 request. Schedule B-4 is the reserve for accumulated
 depreciation on the fixed assets. That would not be
 needed for the O&M and carrying cost request.

Schedule C-3 is the total depreciation б 7 expense that would not be needed for the O&M and 8 carrying cost request. Schedule C-4 is the 9 accumulated deferred income taxes that would also not 10 be needed for O&M and carrying costs associated with the O&M. Schedule C-5, the total personal property 11 12 tax expense would also not be needed on just an O&M 13 request.

Schedule D-1 would still be needed for an O&M request because it determines the long-term debt carrying cost or summarizes it. Schedule D-2 has to do with preferred stocks. That would not be needed for an O&M and carrying cost request. Schedule D-3 would be needed for the O&M and carrying cost request.

21 WPB-1 would not be needed for just an O&M 22 and carrying cost request. WPB-2 would not be needed 23 for an O&M and carrying cost request. WPC-1 would be 24 needed because it's actually the carrying costs on 25 the deferred O&M associated with the 2008 storms.

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 WPC-4 would not be needed in a request for recovery 2 of just O&M and carrying cost on the O&M. WPC-5 would not be needed for a request for O&M and 3 4 carrying costs. MR. SHARKEY: I'm sorry. What was the 5 б answer as to WPC-5? 7 THE WITNESS: Would not be needed, if I 8 did not say that. 9 Q. You said it. 10 Α. WPC-6 would not be needed for a request just for O&M and carrying costs. WPC-7 would not be 11 12 needed for a recovery of O&M and carrying costs. I 13 believe that's all the schedules and workpapers that I had. 14 Sir, I do believe on page 9 of 10, 15 Q. question 17, page 9, company to seek recovery -- go 16 17 down to line 17, they ask about workpaper C-8. Yes, I see that. 18 Α. 19 I didn't hear you address that one. Are Ο. 20 you still sponsoring that one? 21 Well, let me look. Yes, if I forgot that Α. 22 one, I'm sorry; but, yes, I will still sponsor WPC-8, 23 would also not be required for the recovery of O&M 24 and carrying costs on that. 25 Q. Thank you. So just to clarify none of

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 the workpapers that you just discussed would be necessary if the company was just seeking O&M and 2 related expenses? 3 4 Α. I don't believe that's correct. I think there was at least one which had the calculation --5 б Q. You are absolutely right. 7 Α. -- of the carrying costs on the 2008 8 storms. 9 Yes. Workpaper 1, I'm sorry, I did not Q. see that, WPC-1. Does that sound right? 10 A. Let me make sure. 11 12 Q. Sorry. 13 MR. SHARKEY: What is the question 14 pending, Melissa? 15 MS. YOST: The one workpaper that would 16 still be related to O&M costs and deferred balances 17 would be WPC-1. A. Yes. I believe the only one that would 18 19 be needed if we had filed the request that way would be WPC-1. As you know, we did not file the request 20 21 that way and are still requesting the full return on 22 and of the capital similar to what we got in the 2004-2005 storms. 23 24 Q. And in regard to the schedules, if the 25 company were just requesting O&M and related costs,

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 only part of Schedule A-4 would be needed and

Schedules D-1 and D-3; is that correct? 2 Yes, that is correct. 3 Α. 4 Q. Thank you. MS. YOST: Go off the record. 5 (Discussion off the record.) б 7 Sir, did you read the staff audit report Q. in this case that was filed January 1, 2014? 8 9 Α. I read a staff audit report that was 10 filed January 3, 2014. That is good because I don't think there 11 Q. was one on the 1st like I said. Thank you. Does the 12 13 staff indicate in that report, which I am trying to 14 locate my copy, how -- what they have calculated to be the total amount of capital expenses that the 15 16 company is seeking in its application? 17 Α. I believe that's on page 4 of their 18 report. 19 And how much is indicated that is Ο. capital, related to capital? 20 21 The line says "capital expenditures not Α. allowed for recovery" and then in parentheses 22 "including carrying charges is \$27,624,990." 23 24 Ο. Do you know if that's the -- is it the 25 amount of money in regard to capital expenditures --

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 or capital expenses and carrying costs that the

2 company is seeking in its application?

A. I have not checked the math on it.
Q. What would you look at to check the math,
5 sir?

A. Yes, that number is correct. What I was7 looking at was Schedule B-1.

8 Q. Thank you. And would you agree that if 9 the company did receive approval to collect in regard 10 to capital expenses and carrying charges, that the 11 amount sought in the application would be increased?

12 A. I'm afraid I don't understand the13 question because it was too long.

Q. Okay. Thank you. Let's break this down.
You're responsible for calculating the carrying cost
rate and the carrying charges, correct?

A. I prepared Schedules D-1, D-2, and D-3 and sponsored them, and they are used to calculate either the O&M carrying costs or some of the return on the rate base for capital associated costs.

Q. And if I could have you look at your OCCExhibit A-1 which is your revised Schedule D-1.

23 A. Yes, I have that.

Q. And we'll just speak to the revised one,sir. The revised carrying cost rate is indicated to

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 be 5.56 percent, correct?

2 A. That is the amount related just to the3 long-term debt, yes.

Q. And that the 5.56 is reflected as the
carrying cost rate for deferrals in the application;
is that correct?

7 Α. The 5.56 would not have been in the application because we made an error, and we would 8 9 have used the prior number. So we would have used 10 the 5.38, but we would have only used that during the collection period because the deferral period we were 11 12 still using the 5.86 percent that was permitted in 13 the orders related to the initial deferral. But I 14 gave you a long answer. The 5.56 was not used 15 because we just changed it.

16 Q. I should have thought of that. And I 17 don't have your original one. What was the 5.56 18 originally that we -- it was 5.3?

19 A. It was 5.38.

20 Q. Thank you. So you used a lower carrying 21 cost rate for deferrals during the collection period 22 in the application.

23 A. Yes, that's correct.

24 Q. And so during the deferral period for the 25 2008 storms, the carrying cost rate that was used was

1 5.86; is that correct?

2 Α. Yes, it was. And could you identify is that a document 3 Q. 4 that's in the application that you referred to? Yes. I'm looking related to the 2008 5 Α. storms. WPC-1, column (H), shows the heading of the б 7 column "Carrying Costs" at 5.86 percent. 8 And what was the reason that the carrying Q. 9 cost rate changed during the collection period to 10 what was indicated in the application to be the 5.38? The 5.86 percent was based on an older 11 Α. 12 rate, and the 5.38 percent was on the rate that we 13 were just filing in the application in December, so 14 we thought that the newer rate should be used once it 15 had been filed and accepted. 16 Q. Are you aware of the new long-term cost of debt that was approved in the company's 2012 ESP 17 case which is 12-426? 18 19 It's neither of the rates we have been Δ talking about. 20 Yes. So you are aware of that number. 21 Q. 22 Α. I should have said yes, but I don't 23 remember the exact number. But it's neither of those 24 two rates. 25 Q. Ms. Seger-Lawson testified that as of

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 January 1, 2014, that deferral balances -- strike 2 that. Ms. Seger-Lawson testified that the 3 4 deferral balances in existence as of January 1, 2014, that carrying cost rate had been changed. Were you 5 aware of that? б 7 Α. I believe it changed January 1 8 commiserate with the new rates in the new ESP case 9 because that was the newest rate at the time. 10 And did you have anything to -- did you ο. have to do anything to change that rate in regard to 11 12 those deferrals? Was that something you did? 13 I'm not working for the company at this Α. 14 moment in time, but my understanding is that's what's changing prospectively on the deferrals so it would 15 only be from January 1, 2014, forward. 16 17 And do you know when they implemented Ο. 18 that change? 19 It was effective January 1, 2014, so in Α. business -- the closing of the month of January which 20 is still in progress because it's just January 31. 21 22 Right. Assume that a change had to be 0. made effective January 1 and it wasn't aware that 23 24 that change needed to be made until January 30. 25 Could you still make that change effective January 1?

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 MR. SHARKEY: I'm sorry. Could I hear 2 that question again. 3 (Record read.) 4 Q. I'll rephrase that. If the carrying cost rate was to change January 1, 2014, could you make a 5 change on January 30, 2014, without any problems to б 7 that rate? 8 MR. SHARKEY: I am going to object based 9 on form. 10 You can answer the question if you understand it. 11 12 Α. We can make changes to the January books 13 until the January books are closed depending on the 14 timing and the complication of the calculations. The closer it gets to the end of the month or the first 15 16 couple of days in February in this case the less 17 likely it is you can make the change. There's guidelines on when the books 18 Q. 19 officially close after the end of each month? 20 Α. It's as quickly as they can be done and there's a schedule sent out by the parent company, 21 AES. 22 23 Thank you. You were just speaking in Ο. 24 regard to work -- WPC-1 which was a calculation of 25 the 2008 storm carrying charges. Is there a

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 workpaper for the calculation of the 2012 carrying 2 charges? 3 Α. Yes, there is. 4 Ο. What -- what workpaper identification would that be? 5 It's WPC-3 and it's sponsored by another б Α. 7 witness in this proceeding. And in regard to WPC-3, when does the 8 Q. 9 company start per this WPC-3 accruing carrying 10 charges in regard to the 2012 storms? 11 The carrying costs on the 2012 derecho Α. 12 storm started in December, 2012. 13 And are you aware that the derecho storm Ο. 14 took place in late June, early July, 2012? 15 Α. Yes, I am. 16 When do you determine when the carrying ο. costs start to accrue on an O&M expense related to 17 storm restoration? 18 19 Please give me a second. Α. 20 Ο. Sure. 21 In this case, meaning the 2012 derecho Α. storm, we received the order from the Commission 22 approving the deferral and a return on December 19, 23 2012 so we started in December. If we had gotten 24 25 permission three months before that, we would have

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 started three months before.

2	Q. So you start accruing carrying charges				
3	from the date the Commission approves the requested				
4	deferral forward; is that fair, until the balances				
5	are recovered?				
б	A. That's what we did on the derecho storm.				
7	Q. Okay. Let's talk about the 2008 which is				
8	WPC-1, your workpaper, sir. And this workpaper				
9	reflects carrying costs for all 2008 major storms; is				
10	that a fair statement?				
11	A. No.				
12	Q. What does this workpaper reflect?				
13	A. It reflects the carrying costs on the				
14	amounts deferred which were the major storms in 2008				
15	less a three-year average or baseline. I've heard it				
16	called different things.				
17	Q. Thank you. Did you have did you				
18	calculate the three-year average or baseline?				
19	A. I believe that's on a schedule in this				
20	proceeding.				
21	Q. And when did the storm excuse me.				
22	When did the company start assessing				
23	carrying charges for the 2008 deferral of storm				
24	costs?				
25	A. We started deferring a return or carrying				

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

cost on those O&M costs in November of 2008. You can
 see that in column (H) on WPC-1.

3 Q. And do you know when the company received 4 approval to defer 2008 storm costs?

5 A. The order I have in my file here is 6 January 14, 2009.

Q. So the company began -- or WPC-1 shows that the company began calculating carrying costs on deferred amounts before it received approval to defer 2008 storm costs?

11 A. That is correct.

12 Q. Are there any accounting procedures that 13 provide guidance when you're supposed to accrue 14 storm-related O&M expenses that have been deferred? 15 Α. I don't understand the question. 16 ο. Okay. I'll ask this, why was it done differently in regard to the 2008 storms versus the 17 2012? 18 19 I don't know that I know today. Α. 20 And your WPC-1, the costs included in the Ο. application for carrying charges for the 2008 storm 21 is indicated as like a 3.9 million. 22 23 Α. That's the amount on just this one 24 workpaper, work -- or, excuse me, WPC-1.

25 Q. And those are charges that have been

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 calculated up to November, 2012, correct?

2 That's correct. Α. 3 Q. And you -- and the company has not began 4 to collect any of the 2008 storm costs, correct? 5 Α. We have not started collecting any of the б costs yet. 7 Would the company -- and the company Ο. 8 proposes to collect those costs over a three-year 9 period; is that your understanding? 10 Α. That was what the original application requested, yes, ma'am. 11 So if the -- is it the company's proposal 12 Q. 13 they should continue to collect carrying costs beyond the November, 2012, date in regard to 2008 storms? 14 15 Α. That's the company's proposal and in the 16 initial application for the 2008 storms from December 26, 2008, we specifically asked until fully recovered 17 the company would apply based on the actual cost of 18 19 debt of 5.86 percent on the unrecovered deferral 20 balance and defer such carrying costs for future 21 recovery. I believe one of the orders -- well, this 22 Commission order approving the Hurricane Ike and other storms approved it, but I believe the specific 23 24 words on the derecho also say until the amount is 25 fully recovered but let me make sure that's correct.

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 Yes, I'm looking on the derecho and this is Case No. 12-2281-EL-AAM dated December 19, 2012. 2 And on item 5 there it indicates at that time 3 4 5.86 percent carrying costs should be approved because the 5.86 percent is the approved cost of 5 long-term debt in its current ESP and that the б 7 carrying costs should continue until the balance is 8 recovered.

9 And on item 7 in this same order the last 10 sentence says "The Commission finds that the rate for 11 the carrying costs should be set at the most recently 12 approved cost of long-term debt which is 5.86 percent 13 and should continue until the balance is recovered." 14 Q. Thank you. And in regard to WPC-1, if

the company's proposal to collect storm costs over a three-year period was approved and the company was authorized to collect some 2008 storm -- storm costs from customers with carrying costs, and assume that approval was today, the company would be seeking at least four more years of carrying costs from its customers for 2008 storm costs.

A. Since more than a year has passed since this schedule was done that would be one year, and then if it was collected over three years, that would sum to four years, but during the three years as the

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

balance is collected, the amount of carrying costs on
 the balance is reduced because the balance itself is
 reduced.

4 Q. I --5 Α. So, yes, four years you would get the б carrying costs, but the rate would change, as we had 7 discussed, as the Commission issues new orders 8 associated with the overall cost of regulated debt. 9 Thank you. Is there a workpaper in Ο. regard to the 2011 carrying costs that the company 10 seeks in regard to O&M expenses? 11 12 Α. They are included on WPC-3 in addition to 13 the 2012 derecho storms. 14 So WPC-3 includes both the 2012 storm and Ο. the 2013 storms? 15 16 I'm -- I must be misunderstanding you. I Α. am talking about the 2011 storms and 2012 storm. 17 I misspoke, I'm sorry, yes. WPC-3 is the 18 Q. carrying costs for costs sought in regard to 2011 and 19 2012 major storms, correct? 20 21 Α. That is correct. 22 0. Thank you. We were talking about the 23 2012 storm, and you indicated that the carrying 24 charges started to accrue in December, 2012, correct?

25 A. That is correct.

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 0. When did the carrying charges for the 2011 major storms start to accrue? 2 On this schedule they start in March, 3 Α. 4 2013. If you look at the column (D), the \$10 million rounded is the 2011 storms. And column (D), line 1, 5 the 4.7 million is the '12 derecho storm. б 7 0. Thank you. Is there an accounting 8 guidance or principles that indicate how long a 9 deferral -- a cost should be deferred before recovery 10 is sought? Not that I can recall. 11 Α. 12 Q. During your employment with Dayton Power 13 and Light, were you involved in the decision when to seek the deferral of the 2008 storm costs? 14 15 Α. Yes, I was. 16 Ο. Why does the company seek deferral of 17 storm costs? 18 Α. Please give me a moment. 19 Ο. Sure. 20 Large storm events like the 2008 Α. 21 Hurricane Ike and some of the other storms in 2008 are generally unusual and if not deferred would 22 23 significantly impact the earnings of the company. 24 The Commission in Ohio has been very reasonable and 25 very interested in the financial well-being of

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

companies and has permitted many utilities to defer and collect costs related to extraordinary storms over a period of time because they realize the financial and other cash impacts that would have on the company if they were totally disallowed or not recovered.

7 The -- not specifically with the 2008 8 storm but in some of the settlement agreements that 9 we've had, and I know Dona Seger-Lawson had mentioned 10 in her testimony, the prior ESP case where we left open for unusual events like storms or changes in 11 12 environmental laws that we could come in and ask for 13 money because of the impacts that those might have on 14 us.

15 So I guess primarily because of the 16 adverse financial impacts that the Commission has 17 generally been very reasonable and prudent on letting companies recover their prudently incurred costs to 18 19 get customers back into service as soon as possible from these extraordinarily bad events that happened. 20 21 MS. YOST: Could you read back my 22 question. 23 (Record read.) 24 Q. Are you familiar with the term "test

25 year" in regard to traditional utility ratemaking

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 concepts?

2 Α. Yes, I am. 3 Q. What does test year mean to you in terms 4 of traditional ratemaking in Ohio? Test year has to do with the period of 5 Α. б time in a base rate case where you are looking to set 7 rates for customers prospectively, and the goal of 8 the test year is to have a period that reasonably 9 reflects that might be occurring or is expected to 10 occur in the future years to set rates. Q. Can you collect expenses in a base rate 11 case that are -- strike that. 12 13 Can you collect O&M expenses that have been deferred but were incurred outside the test year 14 in a base rate case? 15 16 MR. SHARKEY: Objection. Calls for a 17 legal conclusion. 18 You can answer if you know. 19 I'm sorry. I don't know. Α. 20 Ο. Can -- can the company collect O&M expenses from customers through a rider that were 21 never deferred? 22 MR. SHARKEY: Again, objection. Calls 23 24 for a legal conclusion. 25 You can answer if you know.

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

46 1 A. I cannot think of a specific example so I 2 don't know. 3 Q. Can you recall an example in your 4 experience where a utility was permitted to collect storm costs from customers above the amount it was 5 authorized to defer? б 7 A. I cannot think of an example at this 8 moment in time. Were you involved in the decision when to 9 Ο. 10 seek deferral of the 2011 storm costs? A. I was involved in people asking about it, 11 but I was not involved in the final decision. 12 13 Q. Are you aware that the company -- strike 14 that. 15 Are you aware that the 2011 storm costs 16 were fully expensed and reflected in DP&L's 2011 17 financial statements? 18 A. Can you say the question again? 19 Sure. Are you aware that the 2011 storm Ο. costs were fully expensed and reflected in DP&L's 20 21 2011 financial statements? 22 Yes, they were. Α. 23 And was that your decision to expense the Ο. 24 2011 storm costs? A. When the books were closed in calendar 25

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 2011, which was in early 2012, no one had made a 2 request or indicated at that time that a request was going to be made for recovery of those costs. 3 4 Q. Is that general accounting procedures to 5 expense -- fully expense an account and then later б seek a deferral of those expenses? 7 Α. The general accounting rule for regulatory asset deferrals is that you would expense 8 9 the costs and only defer the costs if you believed it 10 was probable that those costs would be recovered at some point in the future through charges to 11 12 customers. 13 Q. So when you expense an account -- strike 14 that. 15 So you expense costs when you believe 16 there's no potential to collect that cost from 17 customers? That's not the way I would answer. I 18 Α. would say you expense the cost when the cost is 19 20 incurred meaning if the work has been done on behalf of the company. A second step would be that an O&M 21 22 cost that might be deferred and recovered through 23 some regulatory process. 24 ο. On WPC-3 you indicated -- I will give 25 you -- are you on WPC-3, sir?

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 A. Yes.

2	Q. You indicated that the March 13 date was
3	the date that the company started what's the
4	proper term assessing a carrying charge because
5	you are not collecting it? What is the proper
б	accounting?
7	A. I would call it recording a carrying
8	Q. Recording a carrying charge.
9	A. Or calculating the carrying charge,
10	either or.
11	Q. Thank you. And the company has been
12	calculating or recording a carrying charge since
13	March of 2013, correct? That's what you stated
14	earlier?
15	A. The schedule shows this because this is
16	assuming that we were going to recover the amount
17	starting that month or the next month. I don't
18	believe we've actually recorded on the books of
19	account any carrying costs on 2011 storms.
20	MS. YOST: Could you read back that
21	answer, please.
22	(Record read.)
23	A. Let me just amplify, when we were talking
24	earlier, I was saying this is when the carrying costs
25	started on this, that's the way this started on this

1 schedule but, of course, the schedule was filed back in December of '12 and we had hoped to get an answer 2 in the next several months. 3 4 Q. And in regard to the 2012 storm carrying costs that are reflected on WPC-3, those have been 5 recorded on the books of account since December of б 7 2012; is that correct? That's correct. 8 Α. 9 And in regard to the 2011 storm costs ο. that the company seeks to defer, those costs have not 10 been -- or have those costs been recorded on the 11 books of account? 12 13 The base costs have been deferred on the Α. books of account, yes. 14 15 Q. Don't you need Commission authority to book those as a deferral? 16 No, you do not. 17 Α. 18 Q. And can you tell me why? 19 Α. Yes, I can. The accounting rule requires 20 that it be probable of recovery but does not 21 specifically require a Commission order. We thought 22 the recovery of these 2011 costs were probable when 23 we deferred them and still believe they are probable 24 of recovery today. And the reasons -- some of the 25 reasons that we believe that is we got a deferral

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

50 1 order related to the 2008 storms. We got a deferral order for the 2012 storms. Other utilities in Ohio 2 have recovered storm costs. We ourselves had 3 4 previously recovered storm costs related the 2004 and 2005 storms, and adding all that together, we thought 5 б that it met the accounting test of probable that the 7 cost would be recovered. But I forgot to mention one 8 of the other tests. These are prudently incurred 9 costs for a storm or a series of storms, five of 10 them, that we believe the Commission following its past precedent would let us collect through charges 11 12 to customers. 13 So why did the company choose to seek a Ο. 14 deferral of, as reflected upon WPC-3, 2012 storm costs in the amount of 4.7 million before it sought 15 to defer 2011 storm costs, an amount that was 10 16 17 million?

18 A. Please give me a moment.

19 Q. Sure.

A. The 2012 derecho deferral request was made earlier in 2012, and the decision was not made on the request for the recovery of the 2011 storms until later in 2012, towards the end of 2012. Q. But why request 2011 -- excuse me.

25 Strike that.

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 Why request deferral of 2012 before you request deferral of 2011 storm costs? 2 3 Α. That was just the way management decided 4 to proceed. 5 Q. When you say "management," who do you 6 mean? 7 A. The executives of Dayton Power and Light at the time. 8 Q. Was there a decision in 2011 not to seek 9 10 deferral of 2011 -- strike that. Was there a decision in 2011 not to seek 11 12 deferral of major storm costs incurred in 2011? 13 A. I prefer to answer it in a positive light 14 and say there was no decision made to request the deferral of the 2011 costs in calendar 2011. 15 16 Q. Did you -- did management have to 17 decide -- strike that. Did you have to receive management 18 approval to fully expense the 2011 storm costs in 19 20 2011? A. No. As I had mentioned before, there is 21 really a two-step process. The expenses are really 22 recorded first, and then if there is a reason or 23 24 mechanism to do a deferral, then you would do the 25 deferral.

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

52 1 Q. When you were with the company, was part of your job duties to monitor the earnings of the 2 3 company? 4 Α. Yes. MS. YOST: Do you need a break? 5 б THE WITNESS: Are we taking a lunch break 7 sometime? I can go on for a while if you want to go 8 on for a while. 9 (Recess taken.) 10 Back on the record. In 2008, are you Ο. aware that DP&L had a 20.04 percent return on equity? 11 A. I don't recall the specific number. 12 13 Q. Do you recall anything about DP&L's 14 earnings in 2008? A. I believe they were good. 15 16 Do you recall that DP&L had a net income Ο. of 285.8 million? 17 A. I don't recall the specific number. 18 19 And hypothetically -- actually let's not Q. 20 do hypothetically. 21 MS. YOST: Could you read back his answer, please. 22 23 (Record read.) 24 Q. With DP&L's good earnings in 2008, do you 25 agree that if DP&L had expensed its 2008

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

53 1 storm-related costs in the normal course of business, 2 then the recalculated return on equity would have been lowered only slightly? 3 4 Α. I believe it would have been lowered, but I don't know if lowered slightly. 5 б Do you know what the amount of the 2008 Ο. 7 storm cost is that they seek in this case? And just 8 to clarify, I'm specific to O&M. 9 Α. I believe the incremental storm O&M without a carrying cost return is on Schedule C-1, 10 line 5, totaling about \$15 million. 11 12 Q. Do you agree that if DP&L -- DP&L had 13 expensed it's 2008 storm-related costs of 15 million, 14 is that what you said? Approximately \$15 million. 15 Α. 16 Okay. Strike that. Do you agree that if Ο. 17 in 2008 when DP&L's earnings were good, if they had expensed \$15 million in storm costs, then the 18 19 recalculated return on equity for 2008 would have lowered less than 1 percentage? 20 I have not done the calculation, but I 21 Α. 22 would like to say even 1 percent is a lot of money to 23 companies. 24 Ο. Are you aware that DP&L's per book return 25 on equity in 2008 was the highest of Ohio's seven

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 major electric utilities?

2 I do not know that for a fact. Α. Are you aware that in 2011 DP&L had a net 3 Q. 4 income of \$193.2 million? I don't recall the specific number. 5 Α. б Q. Are you aware that in 2011 DP&L had a 7 14.05 percent return on equity? 8 Α. I haven't done that calculation. 9 Are you aware that in 2012 DP&L recorded Ο. a pretax writeoff of 80.8 million related to its 10 Conesville and Hutchings generating facilities? 11 12 Α. Yes, I am aware of that. 13 And that writeoff was disclosed in SEC Q. 14 Form 10-OA? A. Yes, it was disclosed in the SEC 15 quarterly report. 16 17 And that writeoff was unrelated to any 0. decision by the PUCO, correct? 18 19 That's a hard question to answer "yes" or Α. "no" because the writeoff was related to the 20 21 projected revenues and expenses for those plants over the remainder of their lives, and the impact of 22 23 deregulation in Ohio both from the legislature and 24 how it's being interpreted by the PUCO would have had 25 an effect on that, but I would say the effect from

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

the PUCO was less than the effect of market forces
 and other competition.

3 Q. Would you agree that writeoffs of real 4 and regulatory assets occur in the normal course of 5 doing business for a regulated utility?

A. Can you define what a real asset is?
Q. Would you agree that the writeoffs of
regulatory assets occur in the normal course of doing
business for regulatory utilities?

10 My own experience on regulatory assets Α. has been that they are generally recovered and there 11 12 is not a writeoff, but I've also seen occasions where 13 there's a partial writeoff for small amounts that 14 might be disallowed in reviews. In general to me 15 it's rare from my own personal experience seeing a 16 writeoff of a total regulatory asset. So to answer your question, I would say, no, a writeoff of a total 17 regulatory asset is not common. It's rare. 18 19 Would you agree that the writeoff of --Ο. well, when you say total writeoff of the total 20

21 regulatory assets, can you write off -- how do you 22 characterize writeoff of a regulatory asset that does 23 not reflect its total value?

24 MR. SHARKEY: Objection. Can I hear that 25 question again?

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1

	Record	read	۱
(	Record	reau.	1

MR. SHARKEY: I'll object. You can 2 3 answer the question if you understand it. 4 Ο. I'll -- I'll ask again. How do you characterize the writeoff of a regulatory asset where 5 the writeoff does not reflect its total value? б 7 MR. SHARKEY: Same objection. You can 8 answer if you understand the question. 9 I can give you an example of where we Α. wrote off part of our fuel deferral as a result of a 10 settlement among the parties in Ohio and this was a 11 12 prior DP&L fuel case where we reached agreement that 13 a certain amount of money would be disallowed or not 14 permitted for recovery and we wrote off that portion that we had agreed to let be disallowed or not 15 16 continue the request for recovery, but the majority of the costs in the fuel deferral are still collected 17 from customers. 18 19 Would you agree that the writeoff of a Ο. portion of regulatory assets occurs in the normal 20 course of doing business for a regulatory --21 22 regulated utility? 23 I think my previous answer I did not Α. 24 agree, and I think I'm still not agreeing that the

25 normal course of a regulatory asset is for the

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

57 1 recovery of that regulatory asset and that in certain occasions you don't get the entire regulatory asset 2 but that's not as common as the full recovery. And 3 4 then in rarer cases you lose the entire thing but that's rare. So I guess I'm not agreeing still. 5 б Ο. Did you have any involvement in the 7 mutual assistance agreements that the company --8 strike that. 9 Are you aware of the company's mutual 10 assistance agreements that were applicable in 2008, 2011, and 2012? 11 I know we had mutual assistance 12 Α. 13 agreements, but I'm not very familiar with them. 14 Q. Are you aware of whether the company has any insurance that would cover claims related to 15 16 storm damage? 17 The company does not carry insurance on Α. distribution lines so it would not have had insurance 18 19 related to storm damages on distribution lines. 20 ο. When you say the company does not carry insurance on distribution lines, is the company 21 self-insured in regard to distribution lines? 22 The company is self-insured but does not 23 Α. 24 have self-insurance on distribution lines. 25 Q. Does the company -- is the company

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 self-insured on any distribution plant?

2	MR. SHARKEY: Object just because the
3	term "self-insured" is not defined so you may be
4	meaning it to have a different definition than
5	Mr. Campbell.
б	A. I don't believe any of the distribution
7	property is covered by the Miami Valley Insurance
8	Company self-insurance affiliate.
9	Q. Who would know that for a fact?
10	A. The head of our insurance group and
11	and I know her name, but it's getting lost to me
12	right now.
13	Q. Is it
14	A. Elaine Leffak.
15	Q. What does self-insured mean to you in
16	when you just indicated that the company is
17	self-insured?
18	A. I said Elaine. It might be Ellen.
19	MR. SHARKEY: It is Ellen.
20	A. Excuse me. I had to go back and get that
21	corrected. When I talk about self-insured, I'm
22	talking about self-insurance within the DPL, Inc.,
23	group. We have an insurance subsidiary called Miami
24	Valley Insurance Company that insures the other
25	companies within the DPL, Inc., group and also does

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

insurance on the jointly-owned power plants that DPL
 is the operator for. So that's how I would define
 self-insurance.

4 Can I go back to my answer and add 5 another thing? Even though we are self-insured there б is a layer. If there is a catastrophe at a power 7 plant, a third party will step in above a certain 8 dollar amount and there is a level of insurance. And 9 there is an insurance phrase for that but I don't 10 remember what it is. Q. So your generation plant is insured; is 11 12 that fair to say? Some of your generation plants are 13 insured? 14 Some of the generation plants and some of Α. 15 the very large transformers in some of the 16 substations are insured. 17 And are you required by law or rule to 0. 18 carry insurance on some generation plants? 19 Probably not the person to ask. I don't Α. really know. I don't know of such a law but. I'm 20 21 not the right person to answer that question. 22 Q. You said transformers -- very large 23 transformers in substations. Would that be part of a 24 transmission?

25 A. In general I would believe they are

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 transmission assets.

2	Q. And if they are not transmission assets,
3	what type of assets would the large transformers be?
4	A. Within a substation you could have a
5	generation transformer right it would be right
6	outside the power plant itself. And then you might
7	have a transmission transformer some of the
8	transformers in a substation are both transmission
9	and distribution and some of them are exclusively
10	distribution. I know several of the large ones are
11	covered by the insurance, but I don't know whether
12	all the transformers in the substation are covered.
13	Q. Has the company ever collected proceeds
14	from insurance coverage related to storm damage for
15	any property?
16	A. Not that I know of. I don't believe it's
17	insured.
18	Q. Are you aware of whether when the
19	company owned generation property they ever received
20	proceeds from insurance that was related to storm
21	proceeds from insurance that was related to storm
	damage?
22	
	damage?
22	damage? A. I don't remember any generation damage in

ARMSTRONG & OKEY, INC., Columbus, Ohio (614) 224-9481

1 Q. Do you know who would know? It could be that we -- it could mean that 2 Α. it's a provision against a regulatory asset 3 4 associated with storm for the amount that we think is 5 no longer probable in recovery so a storm reserve or provision account. That would be my guess of what it б 7 is but I do not know what it is. 8 MS. YOST: Thank you. Let me just do a 9 quick search through my notes and I think we should 10 be close to done or done. 11 (Off the record.) 12 MS. YOST: I have no further questions 13 for this witness at this time. 14 Mr. Campbell, thank you very much for 15 your time. 16 THE WITNESS: Okay. Thank you. MS. YOST: Did Ryan or Devin have any 17 18 questions? 19 MR. PARRAM: No, no questions for staff. 20 MS. YOST: Thank you. Mr. Campbell, I would just add OCC is going to pay Karen to 21 22 transcribe your deposition testimony today, and I ask 23 that you read it, make any and all necessary changes, 24 and sign it. THE WITNESS: Okay. That would be fine. 25
