Re: Case No. 13-0990-EL-BGN
Greenwich Windpark Project

To the Ohio Power Siting Board,

On behalf of the International Union of Operating Engineers, Local 18 and its membership, I am writing this to express my support for the proposed Greenwich Windpark Project. This proposed project promises a lot of good things for Ohio.

For Local 18 and its membership, this wind project gives us an opportunity to work. Our signatory contractors are seeking to do the pad and foundation related work, and our utility contractors hope to build the transmission facilities and provide support to transport the energy. Our highway and paving contractors want to build access to the sites and upgrade the infrastructure in the wind farm areas. Most importantly our signatory crane contractors are eager to assemble the turbines.

At the same time, our membership will be gainfully employed, paying their taxes and earning their health and welfare and pension benefits. We are here to help our communities, state and country prosper and grow. We urge you to certify this project to keep Ohio moving forward to cleaner energy.

Sincerely,

Patrick L. Sink
Business Manager
