Attorney for The Dayton Power and Light  
Company

# **The Dayton Power and Light Company**

## **Annual Alternative Energy Portfolio Status Report**

Pursuant to Ohio Administrative Code (OAC) Section 4901:1-40-05(A)(1), the Dayton Power and Light Company (DP&L or the Company) hereby submits its Alternative Energy Portfolio Status Report for calendar year 2013. DP&L is an electric distribution utility as defined by Ohio Revised Code (ORC) Section 4928.01(A)(6) and is therefore subject to the advanced energy and renewable benchmarks contained in ORC §4928.64. The purpose of this report is to provide the Public Utilities Commission of Ohio (PUCO), as well as all interested parties, an understanding as to how the Company met its 2013 Renewable and Solar Energy Benchmarks.

### 2013 Benchmarks

The 2013 Baseline Sales level was computed using the Company's standard offer sales experienced in the last three years. The Non-Ohio Renewable Benchmark, Ohio Renewable Benchmark and Non-Ohio Solar Benchmark were calculated based on that Baseline Sales level multiplied against the percentage Benchmarks set forth in ORC §4928.64.

Line	( A ) Description	( B ) MWh Sales	( C ) Source
1	2010	9,957,267	Internal Records
2	2011	7,544,444	Internal Records

21			
22	Acquired Solar RECs	7,019	Attachment 1
23	Acquired from Ohio Facilities	3,510	Attachment 1

## 2013 Status Report

As shown in the above table, DP&L met each of the Benchmarks set forth above in 2013. Attachment 1 shows the facility, location, and other details of the RECs obtained for 2013 compliance.

Pursuant to ORC §4928.65, RECs that were purchased by the Company are usable within a five-year period. Any RECs held by DP&L in excess of its 2013 Benchmarks will be applied to future year benchmarks.

## 2013 Activities

Consistent with DP&L's initial renewable compliance plan approved by Commission order dated June 24, 2009 in the context of DP&L's Electric Security Plan (ESP) (Case No. 08-1094-EL-SSO), DP&L satisfied its 2013 renewable energy requirements largely through the purchase of RECs. Specifically, DP&L worked with brokers who are active daily in trying to find willing buyers and sellers of renewable energy and/or associated RECs. DP&L also made direct purchases from renewable generation owners of RECs.

## Advanced Energy Resource Benchmark

Pursuant to OAC Section 4901:1-40-05(A)(2), the annual review of this Benchmark will begin in 2025.

## Conclusion

As demonstrated above and in Attachment 1, DP&L met each of the 2013 Renewable Benchmarks established by Ohio SB 221.

**Redacted Attachment 1**

**This Exhibit contains confidential, proprietary, and trade secret information  
and the unredacted version is being submitted under seal**
