Hello,

After 15 years of doing energy business in Ohio, Energy Cost Savers, Inc. has now been told that we need to get a license to sell energy for Direct Energy. They were our main natural gas marketer for a few years until they sold to Delta, who sold to Hess, who now sold to Direct. We keep doing business with all the above. It is hard to keep up with all these transactions.

I am submitting the Energy Cost Savers, Inc. application as was required of me to do. I ask if you can please handle this request as soon as possible since I cannot do any business without the license.

It seems that a lot of the requested information applies more to the marketer, who takes title and therefore has to be extremely well funded and solid. However; I did all I could to answer all the questions as best that they applied to my business.

Thank you,

Robert P. Wyman

President

Exhibit A-16 "Company History"

Energy Cost Savers, Inc. was formed in Ohio in 2000.

We started out selling natural gas contracts as a broker firm. We could only sell GTS contracts on Dominion's system and both GTS and Choice plans on Columbia's system, until Choice plans were also approved for marketers to sell. About 10 years ago we had a short period of time where we could sell Choice electricity plans, which we did. Then three or four years ago we were able to sell electricity plans and that is what we have done more than gas.

About 11, or 12 years ago we took on selling electrical products that mitigate the end users costs. Those products included re-lamping, surge suppression, transformers, and power factor improvement.

We have never been asked to get a license before, and we have been doing Business in Ohio, Illinois, and Michigan.

Exhibit B-2 "EXPERIENCE & PLANS"

Robert Wyman has been in the energy business since 1998 selling for two different companies. Then in 2000 my wife and I decided to go into the energy business for ourselves. Susan had a very good job and we decided that she should stay there. We put together a few investors and formed Energy Cost Savers, Inc. I have always been the primary operator and salesman. We had tried a couple of other sales people over the years, but none made it. A couple of years ago Susan bought out the investors and is now the sole shareholder.

I have always had a good retention record, until a short time ago. I was not paying enough attention to my business, and the competition for selling electricity is way greater than it is for selling gas. After all, both commodities are the same whoever sells them. The only difference is the service and attention we pay to our customers that gives us a chance at a future sale. I am gearing up to get back into doing a better job of staying on top of my customer's needs and getting back to some cold calling to building up our business again. At one time we had well over 1,000,000 MCF on our books.

I have had restaurant chains, restaurants, cleaner chains, tire company chains, many apartments and office buildings, developers, including strip centers, industrial plants, group living facilities, and commercial buildings.

Energy Cost Savers, Inc.

Exhibit C-2 "SEC Filings"

We have never done a SEC Filing. We have never been public.

Energy Cost Savers, Inc.

Exhibit C-3 "FINANCIAL STATEMENTS"

The only thing I can think of is the two years of tax returns I have attached to exhibit C-1.

Energy Cost Savers, Inc.

Exhibit C-4 "FINANCIAL ARRANGEMENTS"

With our brokerage business we do not take title to either natural gas or electricity commodities and so we do not require any financial help. Our customers are billed by the regulated utilities, or the marketers. We never are involved with any money transfers.

Energy Cost Savers, Inc.

Exhibit C-5 "FORECASTED FINANCIAL STATEMENTS"

As you can see by looking at the last two years of our tax return we are fairly steady in our annual business. I am planning to get back to more prospecting this year and so I hope we will increase our sales. Again, we do not need financing to do our business even if it were to greatly increase.

Energy Cost Savers, Inc.

Exhibit C-6 Credit Rating

I have attached the credit report that I received from S and P. I contacted all the names you listed in C-6. For a small private company like ours they all use Credit, Inc. So when I finally reached someone at Moody's who said that they would call me back, but never did I called Credit, Inc. (not on your list) and said I struck out trying to get another credit report from the others on the list he told me that they all use Credit, Inc. for companies like ours.

Credit Report

I have no idea how they came up with a negative credit report. We have never had an issue with a late payment in 14 years. We have zero debt. We have a very simple business with virtually no accounts receivable and very little of ever billing for any electrical products, which have NEVER been paid in arrears.

We keep a bank balance of between \$25,000 and \$30,000 all the time. We do so little buying and virtually no billing to form any kind of record, but whatever we do is always clean.

Energy Cost Savers, Inc.

Exhibit C-7

I was told that all credit reports on small very little complicated business all use Credit, Inc. so it is already supplied in exhibit C-6.

Energy Cost Savers, Inc.

EXHIBIT C-8 "BANKRUPTCY INFORMATION"

Energy Cost Savers, Inc. has never had any bankruptcy issues.

Energy Cost Savers, Inc.

EXHIBIT C-9 "MERGER INFORMATION"

Energy Cost Savers, Inc. has not had any dissolution or merger issues.

Energy Cost Savers, Inc.

EXHIBIT D-1 "OPERATIONS"

Energy Cost Savers, Inc. (ECS) is a broker of natural gas and electricity, as well as some products that deal with mitigating electricity costs to the end user. Our primary job is to act on behave of the end users to find the best plan, or product. We do the shopping for them and provide answers to their concerns. We work for the customer, not any one provider. We do not add any extra cost to the customer since we get paid a commission by the provider who wins the sale. The only time we ever handle money is if we do a re-lamping, or a transformer, or the like, which is a very small part of our business.

Energy Cost Savers, Inc.

Exhibit D-2 and D-3

I suppose that I am more experienced in doing energy work than most of my competitors. I have had 15 years of doing this business. For example, when I was awarded the Auto Dealer's Association I had offered to energy survey any of their buildings free. I wound up surveying over 200 buildings and learned from the ground floor up about all kinds of energy issues. I also worked with the Cuyahoga County Energy Manager, who was an engineer and a lighting expert as well as other knowledgeable people.
