**Re: Vectren Energy Delivery of Ohio, Inc., Case No. 13-1651-GA-BTX**

Dear Ms. McNeal:

On March 17, 2014, Ohio Power Siting Board ("Board") issued an Opinion, Order and Certificate issuing Vectren Energy Delivery of Ohio, Inc. ("Vectren") a Certificate of Environmental Compatibility and Public Need subject to a number of conditions.

This filing is made to confirm that Vectren has met Condition No. 15, which states:

**Vectren shall have a construction access plan based on final plans for the access roads, and types of equipment to be used, that addresses the concerns outlined in the Staff Report. Prior to commencement of construction, Vectren shall submit the plan to Staff, for review and confirmation that it complies with this condition.**

The information required by this condition has been provided in the Storm Water Pollution Prevention Plan ("SWPPP") which was submitted to Staff on April 1, 2014. The locations of all of the temporary access points for the project are shown on the SWPPP, as well as the maintenance and restoration of these access points. Additionally, the SWPPP discusses the environmentally sensitive areas and the Best Management Practices ("BMP") that will be implemented. The crossings for the streams and wetlands are all shown in the SWPPP, as well as details for the BMP placement at these crossings. It also discusses the Staff required environmental oversight (Condition 17) on activities within these environmentally sensitive areas.

We request that the Staff let us know if they do not agree. If you have any questions please call at the number listed above.

Sincerely,

Sally W. Bloomfield
