**To:** 'Jerry Lay'  
**Subject:** RE: case #13-0990EL-BGN

Mr. Lay,

Thank you for contacting the Ohio Power Siting Board regarding the Greenwich Windpark in case number 13-0990-EL-BGN. Your correspondence in opposition to the project will be docketed in the public comments section of the case record and made available for the Board's review prior to their decision.

As you mentioned, Windlab held a public informational meeting at South Central High School on May 22, 2013. Additionally, the Board held a local public hearing in Greenwich on May 6, 2014 to gather testimony from the community. In accordance with the Board's administrative requirements, public notice for each of these meetings was published in the Norwalk Reflector and the Greenwich Enterprise Review

This case remains pending before the Board. Before the Board makes a decision, it will consider the complete record in the case, including Windlab's application, the staff report, and the transcripts from the public and adjudicatory hearings. All of these materials, as well as an interactive map that indicates the location of each turbine, are available on Ohio Power Siting Board website.

If you would like to sign up to receive email notification of upcoming Board agendas and decisions, or if you simply have additional questions, please do not hesitate to contact me.

Sincerely,

Matt Butler  
Public Outreach Manager  
Ohio Power Siting Board  
Public Utilities Commission of Ohio

Technician SM Date Processed JUN 23 2014

My mother already has severe health problems that from what I understand about this proposed windfarm to be put in around the rural area of Greenwich, could very well compound her already existing conditions. Her property abuts several proposed locations for the turbines. I (her son) have durable power of attorney to deal with all her matters and I am contacting you at this time to let you know that we are totally against

this proposed windfarm as nothing has been proven as to the safety or adverse health affects to the people living in and around the area as to where the turbines ill be located. Also we have been given adverse information by Monica Jensen as to the affects the trubines will have on our property values and the case of attmpting to resell the property. I for one as is my mother Eileen and Jerry Lay of 3267 US Hwy 224 E., Greenwich, Ohio 44837 are against this proposed windfarm that will be located adjacent to our property. The PUCO needs to put a hold on all exiting permits for Windlab until all studies and current information as to property values, health effects and conditions, ecological transgressions, and so forth are completed. Also Windlabs have had several supposedly informational meetings which were suppose to be and were advertised as question and answer meetings to address the concerns of the local residents when in fact the meetings have been just the opposite and have been propaganda meetings where the only information they shared is what Windlab wanted to people to know so the local residents would accept their word and support the project. One trustee is more than in favor of the project ( David Seidel) because he is in line to receive at least one turbine on his property. Being a local government official should ban him from personally benefiting from such a project. We the concerned residents of Greenwich Township and The Greeinwich, Ohio area are requesting that the PUCO, set up a meeting Locally whereas the people can voice their concerns for and/or against this proposed wind ***farm.***
