Re: Greenwich Windpark, Case No. 13-0990-EL-BGN

Mr. Oney,

Thank you for contacting the Ohio Power Siting Board (OPSB) regarding the Greenwich Windpark, OPSB Case No. 13-0990-EL-BGN. I appreciate your continued interest in the case and will docket your letter in the public comments section of the case record along with your previous correspondence with Staff.

As you mentioned, the Board held a local public hearing in Greenwich on May 6, 2014. On May 16, a joint stipulation and recommendation was filed by the formal parties of the case: Windlab, the Ohio Farm Bureau Federation, and the OPSB Staff. Later, on May 19, the Board held an adjudicatory hearing in Columbus.

At this point, the Board is reviewing the case record, and has yet to schedule the case for a vote.

If you have any additional questions, please feel free to contact me directly at (614) 644-7670.

Sincerely,

Patrick Donlon
Interim Executive Director

Re: case #13-0990-EL-BGN

Please reconsider and grant us one more open meeting to express our doubts, questions and opinions about the above noted project. We were granted three meetings, as per law, but most of the people I've talked to had the impression they were simply informational meetings for Wind Lab to state their case. Our citizens didn't know enough about the drawbacks to even ask intelligent questions. Our county commissioners and township trustees (one of whom will have a turbine on his property) keep saying that this is a "done deal". I don't believe that the overwhelming numbers of Greenwich citizens who now oppose turbines will not be heard. I believe, wholeheartedly, that still in America our collective voices will be heard.

The future of our small town is in your hands. I believe in you and your ability to do what is right. You are simply people like us who would not want one of these huge machines in your backyard. Thank you.

Yours truly,

A handwritten signature in cursive script that reads "Gerald T. Oney".
