Subject: Biers Run-Hopetown-Delano transmission line

Mr. Cormany,

Thank you for sharing your concerns regarding the proposed Biers Run-Hopetown-Delano transmission line route through the Pleasant Valley Wildlife area. Your comments will be docketed in case number 13-0429-EL-BTX. I hope to see you again at AEP's public information meeting scheduled for 6-8 p.m. on July 22 at the Pioneer School, 11268 County Road 550 in Chillicothe.

Sincerely,

Matt Butler

COMMENT DESCRIPTION:

OPSB Staff and Board Members:

On behalf of the 11.5 million Ohio residents and thousands of hunters and outdoor enthusiasts both in state and out of state who have access to the Ohio Department of Natural Resources Division of Wildlife Pleasant Valley Wildlife Area, I adamantly object to the new proposed route through the Wildlife Area.

The reason for this project as stated by AEP is to support and reinforce the current transmission network for current and future development. The newly proposed route that cuts through the wildlife area runs through undeveloped forests and farms, far removed from the subdivisions and urban areas that require, demand and necessitate the reason for this project.

It would be irresponsible for AEP to place and OPSB to approve this new transmission line away from the development and customers it is supposed to serve.
