COMMENTS: I would like to file a complaint regarding the Greenwich Wind Park. I do not believe that sufficient research has been done on this project. The minimum amount of power that will be produced by these huge unsightly wind turbines will not even be used by the people in this community. It will be sold on the grid. These turbines will affect our property values, disturb the environment, and ruin our roads. I believe farmers that signed these leases realize what they are getting themselves into. Please reconsider and do not allow this project to move forward.
