Mr. and Mrs. Behling

Thank you for contacting the Ohio Power Siting Board (OPSB) regarding the Buckeye Wind Farm. It is noted that you oppose the extension of Everpower's certificate in case number 08-0666-EL-BGN and request that the OPSB require Everpower to submit a new application and hold a public hearing on this matter.

The OPSB welcomes and encourages public comment on cases during all stages of a project, from pre-application to certification, and for matters such as the extension of a certificate or questions during the operation of a facility. Your comments will be docketed in the public comments section of OPSB case numbers 08-0666-EL-BGN and 13-0360-EL-BGA.

Please do not hesitate to contact me with any additional questions.

Sincerely,

Matt Butler

Concerning case # 08-0666-EL-BGN :

We urge the OPSB to require an application with a public hearing for the request by EVERPOWER to extend their certificate of approval by 3 years. The current certificate of approval for this project expires in 2015. We believe a 3 year extension is a significant change and should not be done via a simple motion. Public comment on all significant changes must be part of the approval process.

Thank you,
