COMMENTS: I am opposed to the wind farm being built in Greenwich. I believe that any economic benefit to the community will be temporary. The power generated will not even be used in our area. It will be sent onto the grid and will not lower our personal utility bills. However, we will be the ones left with the infrastructure after the wind turbines no longer function. The landscape of our rural life will be ruined. Our property values will be lowered. I do not see any value to adding these turbines.
