Mr. & Mrs. Jeff & Debbie Garlock,

Thank you for contacting the Ohio Power Siting Board (OPSB) regarding the Hardin Wind Energy Project.

Public comment on matters before the OPSB are always welcome, regardless of the case's status in the siting process. The OPSB regularly reviews public comments before a project is certificated, after a Board decision, and during the construction and operation of a project. As such, your comments will be docketed in the public comment sections of the case file under OPSB Case Number 09-479-EL-BGN.

Again, thank you for your interest in the case.

Sincerely,

Steve

OPSB-

We are writing to express our **opposition to the filing of a motion to extend the Hardin Wind Energy project.** We believe that certification extension requests **should follow due process.**

This would provide an opportunity for public comment. By filing a motion instead of an application for the amendment, Invenergy is *trying to deny due process to citizens. As citizens and land*

owners we have a right to express our concerns. What happened to our rights as citizens?

Thank you for your opposition to the extension. This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business.
