Mr. Randy Wax,

Thank you for contacting the Ohio Power Siting Board (OPSB) regarding the Hardin Wind Energy Project.

Public comment on matters before the OPSB are always welcome, regardless of the case's status in the siting process. The OPSB regularly reviews public comments before a project is certificated, after a Board decision, and during the construction and operation of a project. As such, your comments will be docketed in the public comment sections of the case file under OPSB Case Number 09-479-EL-BGN.

Again, thank you for your interest in the case.

Sincerely,

Steve

I'd like to object to allowing Invenenergy's Hardin County wind project a three-year extension to their construction permit. I believe granting this without public is another way that this huge tax-incentavized company attempts to work through Ohio's laws, finding any loophole their attorney's can and exploiting them. I'm urging the siting board to not grant this extension.

Thank you!

Randy Wax
