Ms. Kelly Klink,

Thank you for contacting the Ohio Power Siting Board (OPSB) regarding the Hardin Wind Energy Project.

Public comment on matters before the OPSB are always welcome, regardless of the case's status in the siting process. The OPSB regularly reviews public comments before a project is certificated, after a Board decision, and during the construction and operation of a project. As such, your comments will be docketed in the public comment sections of the case file under OPSB Case Number 09-479-EL-BGN.

Again, thank you for your interest in the case.

Sincerely,

Steve

I oppose the filing of a motion to extend the Hardin Wind Energy project. Certificate extension requests should follow due process and provide an opportunity for public comment. By filing a ***motion*** instead of an ***application for amendment***, Invenergy is trying to deny due process to citizens. A precedent will be set that the people of Hardin and Logan can be denied due process. Please do not grant this extension.
