PUCO

RECEIVED-DOCKETING DIV  
2014 AUG -4 PM 3:44

Ms. Carlotta Burden,

Thank you for contacting the Ohio Power Siting Board (OPSB) regarding the Hardin Wind Energy Project.

Public comment on matters before the OPSB are always welcome, regardless of the case's status in the siting process. The OPSB regularly reviews public comments before a project is certificated, after a Board decision, and during the construction and operation of a project. As such, your comments will be docketed in the public comment sections of the case file under OPSB Case Number 09-479-EL-BGN.

Again, thank you for your interest in the case.

Sincerely,

Steve

I believe an application should be required for Hardin Wind Energy LLC's certificate extension. This is important that the public should have the opportunity to make their concerns heard.

**Subject:** 09-0479-EL-BGN

Dear Sir:

It has been brought to my attention that Invenergy is filing a motion to extend the Hardin Wind Energy project 09-0479-EL-BGN .

Certificate extension requests should follow due process and provide an opportunity for public comment. By filing a ***motion*** instead of an ***application for amendment***, Invenergy is trying to deny due process to citizens. Certificate extension requests should follow due process and provide an opportunity for public comment. Please deny this motion.

Thank you  
Joe Grant
