Dear Mr. & Mrs. Elsasser,

Thank you for contacting the Ohio Power Siting Board (OPSB) regarding the Hardin Wind Energy Project.

Public comment on matters before the OPSB are always welcome, regardless of the case's status in the siting process. The OPSB regularly reviews public comments before a project is certificated, after a Board decision, and during the construction and operation of a project. As such, your comments will be docketed in the public comment sections of the case file under OPSB Case Number 09-479-EL-BGN.

Again, thank you for your interest in the case.

Sincerely,

Steve

Case Number 09-0479-EL-BGN

To OPSB Members:

We are writing to ask that you deny the extension by motion for Hardin Wind Energy LLC and require that Invenergy file an application to extend the deadline of their certificate. By obtaining an extension by motion verses an application they eliminate the opportunity for the public to comment. Too many residents already feel that their have been eliminated as participants in this project, please do not take away their rights again. We ask that an application be required for Invenergy's certificate extension request. We ask the Ohio Power Siting Board to hold a hearing on the extension of Invenergy's certificate of approval. We ask that the public be allowed to comment.
