Dear OSPB and Monica,

Please reference case #13-0990-EL-BGN.

Please include these full color pictures in the case record with my last email. It makes no sense without the picture(s) docketed together.

Please docket in full color like windlab's "new detractors" map was docketed.

My question is: Do turbines belong here Monica?

Two questions really. Do they belong in the pictured home? And, secondly, do they belong here (in Greenwich) near the 668 homes, two schools, seven parks, where you are unwilling to comment on the Infrasound Low-Frequency Noise (ILFN) emissions produced?

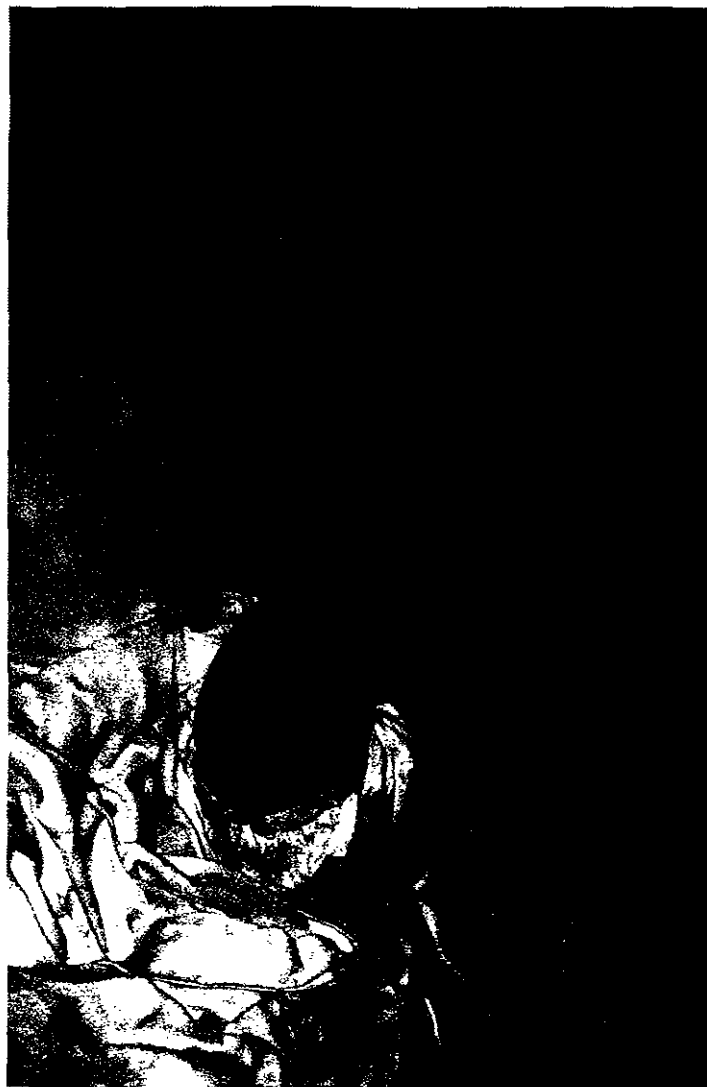

Third question to kindly answer. Below is my beautiful healthy baby, who has a delicately developing brain. Neurons forming daily, and her sweet brain will be 90% developed by age five. Does she look like a Guinea pig to you?

Respectfully,

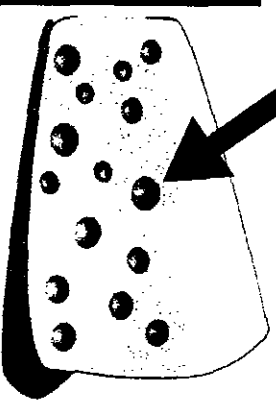

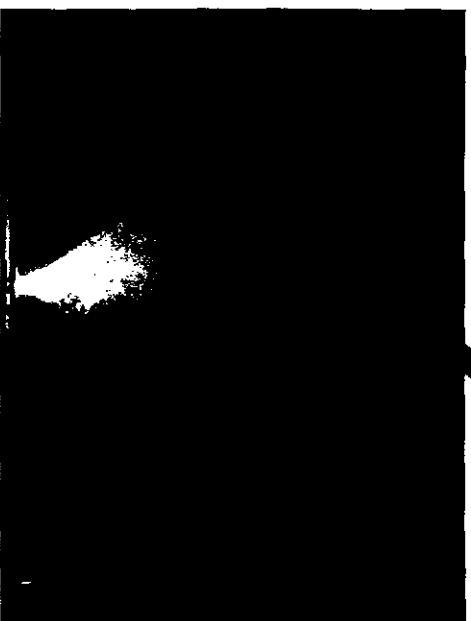

Valerie Malicki and sweet baby Violet Malicki
