

BEFORE

THE PUBLIC UTILITIES COMMISSION OF OHIO

In the Matter of the Joint Petition of Ohio )  
Power Company and Frontier Power ) Case No. 14-1099-EL-PEB  
Company Requesting Revision to )  
Territorial Boundary Map. )

ENTRY

The Commission finds:

- (1) Ohio Power Company (OP) and Frontier Power Company (FPC) are electric suppliers as defined in R.C. 4933.81.
- (2) Certification by the Commission of the territories of OP and FPC was approved by entries in Case No. 78-1311-EL-ORD.
- (3) OP and FPC have jointly petitioned the Commission to include overlap "A" by FPC in OP's service territory in Franklin Township, Coshocton County, Ohio. Specifically, they request the following relocation:

On Quadrangle map M-25, include an overlap area "A" served by FPC in OP territory as represented on the attached map and physically located at coordinates -81.876582, 40.210057.

- (4) In support of their request, FPC has existing three phase facilities just across the Muskingum River where the property that has requested electric service. While OP is willing to serve this customer, it has been determined that it is more practical and financially beneficial to this customer to be served by FPC. FPC is willing to serve this customer and the customer is requesting to be served by FPC. All existing services at this location will remain in OP territory, the overlap will only occur to serve the location of one water well.
- (5) R.C. 4933.83(E), provides in pertinent part:

*Notwithstanding the effectuation of certified territories established by or pursuant to R.C. 4933.81 to 4933.90, and the exclusive right of electric suppliers to serve within such territory, and notwithstanding any other*

provisions of such sections establishing rights of electric suppliers to furnish electric service, any two or more electric suppliers may jointly petition the commission for the reallocation of their own territories and electric load centers among them and designating which portions of such territories and electric load centers are to be served by each of the electric suppliers.

- (6) No objections to the reallocation described in Finding (3) have been brought to the Commission's attention.
- (7) The Commission finds that granting the requested relief will promote the purposes of R.C. 4933.81 to 4933.90, and will further promote the provision of adequate service to all territories and electric load centers affected by the relocation as required by R.C. 4933.83(E). Accordingly, the Commission finds that the joint petition is reasonable and should be approved.
- (8) The Commission, therefore, directs that the territorial boundaries of OP and FPC be appropriately modified as delineated in Finding (3) and amends the maps of the certified territories accordingly.

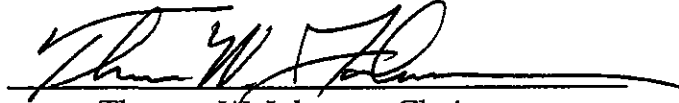

It is, therefore,

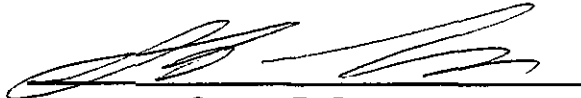

ORDERED, That the request of OP and FPC to overlap their territory boundary be granted. It is, further,

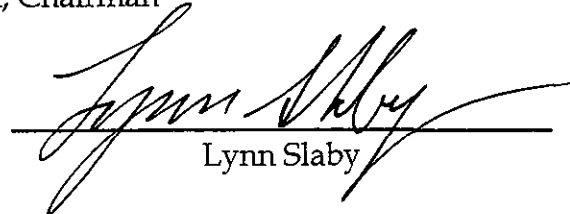

ORDERED, That the change on quadrangle map M-25, described in Finding (3), be approved to show the overlap change. It is, further,

ORDERED, That a copy of this Entry be served upon each party of record.
