Bill Remlinger
8844 State Route 273
Belle Center, Ohio 43110

Mr. Remlinger,

Thank you for contacting the Ohio Power Siting Board (OPSB) regarding the Hardin Wind Energy Project.

Public comment on matters before the OPSB are always welcome, regardless of the case's status in the siting process. The OPSB regularly reviews public comments before a project is certificated, after a Board decision, and during the construction and operation of a project. As such, your comments will be docketed in the public comment sections of the case file under OPSB Case Number 09-479-EL-BGN.

Again, thank you for your interest in the case.

Sincerely,

Steve

As nearby homeowners we are very concerned with Invenergy trying to deny due process to citizens with their filing a motion to extend the Hardin County Wind Energy project. Certificate extension requests should follow due process and provide an opportunity for public comment. We feel this is a very important concern regarding the quality of life in the Indian Lake region and that the local citizens and voters should have a right to have their opinion, as well as other experts opinions included in the decision making process. Thank You, William Remlinger, 8844 SR 273W, Belle Center, Ohio 43110
