Ms. McClees,

Thank you for contacting the Ohio Power Siting Board (OPSB) regarding the Hardin Wind Energy Project.

Public comment on matters before the OPSB are always welcome, regardless of the case's status in the siting process. The OPSB regularly reviews public comments before a project is certificated, after a Board decision, and during the construction and operation of a project. As such, your comments will be docketed in the public comment sections of the case file under OPSB Case Number 09-479-EL-BGN.

Again, thank you for your interest in the case.

Sincerely,

Matt Butler

Subject: Protest of filling of motion

I am writing to oppose the filing of a motion to extend the Hardin Wind Energy project, case number 09-0479-EL-BGN. This will deny due process to citizens who will be impacted by this wind energy project. They should have filed a new application. This is a ploy to avoid meeting the new set back requirements. Do not allow this to occur.

Regards,

Nancy McClees
