Dear Director of N.R. James Zehringer,
OH Dept. of Natural Resources

This is concerning Greenwich Wind
Park case No. 13-0990-EL-BGN.

I am a member of Greenwich Neighbors
United. I ask you to please look
at the public comment section on
the OPSB. Case No. 13-0990-EL-BGN.

Here you will find the heart and soul
of our community and you will know
that we strongly protest this wind park.

We ask you to help us fight for
another meeting in Greenwich Ohio.
We know what questions to ask we
have been investigating the other side
of the story concerning wind turbines.

All we ask you is a fighting chance
to be heard, and a moratorium on
wind farms in Ohio until more
studies have been made.

We feel that there are health issues
concerning infra sound, wild life
angers and property devastation, safety
coming to us without your voice
in these matters.

We request your help in stopping
this spraying in Ohio until Sept. 2015 until
SB 310 has been completed.
Please hear our cry!

3805 Omega Rd
Greenwich, Oh 44837

Respectfully,

Marcia Ledet
