My name is Leslie Somsak. I live at 2910 US. HWY. 224 E., in Greenwich Township, in Huron

Co. I wish to state my opposition to pending Greenwich Wind Park LLC Project. As a 42 year

resident and property owner at this location, I never in my wildest dreams would have thought

the powers to be in our great state of Ohio, could consider subjecting home owners to the

dangers and unsightly existence of Wind Turbines in front and back yards. According to map

layout, Turbine#18 would be located aprox. 2000 feet to the N.East of my house. Turbine#21

would be located aprox. 3500 feet N.WEST of my house, and Turbine#17 would be located

aprox. 2400 feet S.EAST of my house. I am concerned about the low frequency constant noise

levels that may affect the health of my wife, Loretta, and myself. I'm worried about possible ice

cast-off from the turbine blades. Wild life will surely be affected. Life flight helicopters and field

planting and spraying can no longer happen. I'm sure property values would be impacted. Who

would want to purchase a home in the middle of a Wind Park? Would you? From what I

understand, a Wind Park cannot be constructed, and operated without government approved TAX

CREDITS. As I understand Turbines will not run full capacity. Wind does not blow all of the

time. They will draw power from the Grid to operate. Their power contribution will be small

compared to their cost. Power will be expensive for Cooperative Electric Companies to

purchase. I'm asking the Board Members to search your hearts and not put Greenwich Wind Park

LLC project, Case No. 13-0990-EL-BGN on the backs of the good people of the

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business. Technician ______ Date Processed ______ AUG 2 1 2004 Greenwich Area. Somsak With sincerest hopes, Leslie and Loretta
