Columbus, Ohio 43215

SUBJECT: Docket # 13-0990-EL-BGN

Dear Mr. Johnson:

I have lived in Greenwich, Ohio for the past 36 years. We moved here from Akron, Ohio. We chose to live here, instead of the city, because of the beauty and peacefulness of the rural community.

I am very concerned about the proposed wind turbine farm. My major concerns are noise, the impact on wildlife, and decreased property values.

There are also various safety problems to be considered, such as ice throw, turbine fires, and blade shear. While our volunteer fire department does a wonderful job, they do not have the necessary equipment.

I understand that there was a recent house bill changing the set-backs for wind farms. However, this project would not be affected. Since the project will not start until 2015, why shouldn't these new rules apply?

Many of us in the community have just become aware of the impending wind farm and have major concerns that need to be addressed. Please consider having another hearing on this matter and you will hear all of the community speak and not just those that are receiving economic gain from the leasing of their properties. I would also ask that you would enforce the new set-back rules.

Sincerely,

April L. Bordas
