Dear Chairman Johnson

Re: Greenwich Wind Park Docket #13-099-ELBGN

I am an adjacent land owner to the Wind Park. My family and I have a dairy farm very close to the proposed turbines. We also have schools very close to Wind Park

We are basicaly an agricultural & residetial comunity, I fear that the noise and distraction of 25 turbines will be very detrementae to the quality of life for man & beast in our fine comunity.

Another concern is "turbine fires" from lightning strike etc. We have large fields of ripe & dry grain between the turbines and residents & schools. We have a great volunteer fire department, but not equipped to handle a turbine fire, faning a 100ac field of wheat. "Could be disastrous"

Also, being a farmer all my life, it makes me shutter, knowing the permant damage that will be done to our precious Cropland, and resources in the "pretense of green energy."

I am very opposed to the Wind Park for the ill effect it will have on the health, safty & welfare of ~~the~~ residen of our communite. We can & need to spend tax $ more wisely.

If you can, please help us to stop this project.

Thanks Yall
Gerald T. Oney
