

RECEIVED-DOCKETING DIV
FILE 2014 AUG 21 PM 3:14

ED 501
AUG 21 PM 3:14
PUCO

Dear Chairman of PUCO,
Thomas W. Johnson,
And the OPSB;

Our concerns are about Health and
infrasonic sound, Safety of the set
backs, Our property values and the
negative impact on our wildlife.

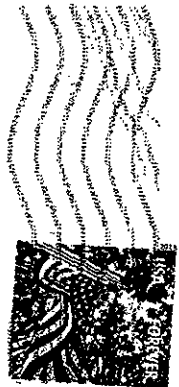

We are asking for a Stop on this and especially Huron County Wind project until SB 310 can be completed in Sept. of 2015. We are also asking for the Wind Turbine Company to come back to Greenwich for another meeting. Now that we are better educated about Wind Farms we would like a second chance to talk to them and present our concerns. We appreciate your job

and position but we feel a fair shake is due us.

Have you read the concerns of Greenwich citizens on the OPSB in the public comment section.
