Subject: Wind turbines in Greenwich, Ohio

Categories: Green Category

You need to look into all the facts about these wind turbines!! It's not right to keep the public not informed about all the facts!! The people of Greenwich, Ohio care about their little village of 1500 people. Almost everyone in that village is related some how, and care about what goes on there. When you aren't informed about all the facts, that isn't fair to get just a few on the band wagon and go with it!! Communication has and always is the most important thing that citizens have the right to. So not telling them the cons of these wind turbines is wrong. There are some many studies about health issues and animals being affected and nobody tells those facts!! I say that I don't want them in Greenwich, Ohio!!! #13-0990-EL-GBN Sent from my iPhone
