DE: Cranwick

To Whom it May Concern,

RE: Greenwich Windpark, LLC Project Case no. 13-0990-EL-BGN

As an adjacent property owner of the above referenced project, I would like to go on record as opposing wind turbines entering Greenwich Township. There will be seven wind turbines within a 1-1/2 mile radius of my residence (two that are less than ¾ mile). I have many concerns about the effect on neighboring households including my own. The problems experienced in other areas with noise, health, wildlife, property values, and safety make me doubt the advisability of a small farm community being an appropriate location for such an undertaking.

At a minimum, please consider delaying any decisions until another meeting/hearing can be held in Greenwich to allow neighboring residents to be heard and to inform us of both sides of the story. At the time of the first meeting we were all too uniformed to comment and it is only now that we are learning of possible negative consequences.

Please consider the percentage of adjacent property owners who have signed petitions against the windpark coming to our area. Also, consider the opinions of the nonadjacent property owners whose homes will be affected in the same way as an adjacent property owner.

Respectfully,

M. Scott Cotterman 63 South Kniffin Street Greenwich, Ohio 44837
