This committee is a farce. Been in bed with the wind tower people from the beginning. The H with the local people.

Mr. Lowell Kreager
1866 Alpha Road
Greenwich, Ohio 44837

Mr. Kreager,

Thank you for your continued interested in the proposed Greenwich Windpark, OPSB Case No. 13-0990-EL-BGN. Your correspondence will be docketed and made available in the public comments section of the online case record.

The Board continues to review the record in this case and has yet to schedule the Greenwich Windpark for a decision.

Please do not hesitate to contact me with any additional comments or questions.

Thanks,

Steve

COMMENTS: These wind tower generators in Greenwich Township concern me. Having an Australian outfit with U S subsidies coming in and getting land owners to sign up without making it very public. We are at a time when there isn't an increased demand for more electricity to be generated. Where is it going to go? These things cause health problems. I hope the EPA is making a through investigation. I'm sure they will. In this level land area you will be able to see all of them. I think when the committee votes they should consider if they would want one of them in their backyard. They should also consider that most of the people in this area don't want them. We have 96 people per square mile in this township. Build them in the desert or mountains where people don't live. They will lower the land values here.
