Re: Case No. 14-659-EL-ACP
Hudson Energy Services, LLC
Amended Public Version of the 2013 AEC Report

Dear Ms. McNeal:

On April 15, 2014, I filed a redacted version of the Alternative Energy Compliance Report for Calendar Year 2013 for Hudson Energy Services, LLC. Pursuant to Rule 4901-1-24(D) of the Ohio Administrative Code, I also filed a motion for protective order and submitted under seal three copies of the confidential version of that report.

Today, I am filing an Amended Public Version of the 2013 Alternative Energy Compliance Report which supersedes the one I filed on April 15, 2014. This amended report is redacted because it contains certain confidential and proprietary information. I will be submitting three copies of the confidential amended version of this report later today. The April 15, 2014 motion for protective order should be applicable to today's public and confidential amended versions.

Thank you for your consideration.

Sincerely yours,

Stephen M. Howard

- b. Supply Portfolio projection
Just Energy purchases supply based on short term annual contracts.

- c. Methodology used to evaluate compliance.

Just Energy is not developing and does not own any renewable generation that would qualify under the Ohio RPS program. Instead, Just Energy purchases renewable energy under third- party contractual agreements to meet its RPS procurement obligations. Just Energy will purchase renewable energy on an annual basis based on projected sales, hedging against risks with other procurement options. This procurement process will account for the various portfolio content category requirements, and will ensure that Just Energy has sufficient procurement from each portfolio content category to satisfy the requirements in accordance with Ohio law (Revised Code Section 4928.64). After the end of each year and each compliance period, Just Energy will true up its purchases and re-evaluate its retail sales data, to help ensure it will purchase and procure sufficient renewable energy to meet its RPS procurement and portfolio content category requirements.

- d. Comments on any perceived impediment(s) to achieving compliance with the solar and non-solar REC requirements, as well as any discussion addressing such impediments.

Just Energy obtained all the required REC's for the 2013 reporting period.

I, Richard Hill, Compliance Supervisor, am the duly authorized representative of Commerce Energy of Ohio, Inc. d/b/a Just Energy 6345 Dixie Red, Suite 200, Mississauga, Ontario, Canada, and state, to the best of my knowledge and ability, all the information contained in the foregoing Competitive Retail Electric Service Provider Alternative Energy Annual Status Report for Calendar Year 2013, including any exhibits and attachments, are true, accurate and complete.
