Docketing Case No.: 14-0841-EL-SSO

PLEASE FILE OPPOSITION COMMENT UNDER CASE #:14-0841-el-ss0 Kyger Creek is a terribly polluting plant and coal is a very dirty fuel. Please deny AEP's request to continue running Kyger Creek and pass costs on to us. Besides being dirty, these coal plants are too expensive to continue running. Built about 60 years ago, AEP's Kyger Creek and Clifty Creek are at the end of any expected life cycle and should be replaced with efficiency and renewables.

Please docket the attached in the case number above.
