## **EXHIBIT C**

### **Description of the Changes**

In this application, Minford Telephone Company requests BLES pricing flexibility in order to have the authority to increase its BLES rates for both business and residential customers by \$1.25 per month in its Minford-Stockdale Exchange, at a date to be determined in the near future. Obtaining flexible pricing at this time is essential for the Company to bring its rates more in line with the national average and continue to provide our customers with excellent telephone service.

**EXHIBIT D**

**(Customer Notice)**

The following customer notice will appear on bills that are mailed to customers on **Date to be Determined** once a decision has been made to increase local telephone rates for residential and/or business customers. This notice will also be sent to the Office of Ohio Consumers' Counsel and to the Commission's electronic mailbox ([Telecom-Rule07@puc.state.oh.us](mailto:Telecom-Rule07@puc.state.oh.us)) no less than thirty days prior to the rate increase:

Effective **Date to be Determined**, our local telephone rates for residential customers will increase by \$1.25 per month for residential and business customers, from \$17.00 to \$18.25 for residential customers and from \$23.40 to \$24.65 for business customers. The increase is necessary to bring our local rates more in line with the national average and continue to provide our customers with excellent telephone service.

If you have any questions about the revised rates, please call our office at (740-820-2151).

**(CUSTOMER AFFIDAVIT)**

I, \_\_\_\_\_, am an authorized agent of the applicant corporation, Minford Telephone Company, am authorized to make this statement on its behalf.

I attest that the customer notices accompanying this affidavit were sent to affected customers as a bill message on **Date to Be Determined**, in accordance with Rule 4901:1-6-07, Ohio Administrative Code. I declare under penalty of perjury that the foregoing is true and correct.

## **EXHIBIT E**

### **(Demonstration of Alternative Providers)**

Pursuant to R.C. 4927.12(C)(3)(a) and Ohio Administrative Code 4901:1-6-14, Minford Telephone Company may not increase its BLES rates for an exchange area unless it first applies to the Public Utilities Commission of Ohio and the Commission determines that the applicant demonstrates that two or more alternative providers offer, in the exchange area, competing service to BLES service offered by the company, regardless of the technology and facilities used by the alternative provider, the alternative provider's location, and the extent of the alternative provider's service area within the exchange area. An alternative provider, under R.C. 4917.12(C)(3)(a), includes a telephone company, including a wireless service provider, a telecommunications carrier, and a provider of internet protocol-enabled services, including voice over internet protocol.

The Commission has not previously determined that Minford Telephone Company's Exchange qualified for alternative regulation of BLES.

In accordance with R.C. 4927.12 (C)(3)(a), the attached information demonstrates that two or more alternative providers offer competing service to the BLES service offered Minford Telephone Company, namely Verizon Wireless and AT&T Wireless.

**Important Information About This Coverage Map**

This coverage viewer provides a high-level approximation of wireless coverage. There are gaps in coverage that are not shown by this high-level approximation. Actual coverage may differ from map graphics and may be affected by terrain, weather, foliage, buildings and other construction, signal strength, high-usage periods, customer equipment, and other factors. AT&T does not guarantee coverage. Our coverage maps are not intended to show actual customer performance on the network, nor are they intended to show future network needs or build requirements inside or outside of existing AT&T coverage areas. Coverage maps also may include areas served by unaffiliated carriers and may depict licensed areas rather than an approximation of coverage. Charges will be based on the location of the site receiving and transmitting the call, not the subscriber's location. Your phone's display does not indicate the rate you will be charged.

These maps are subject to the Microsoft® Service Agreement and for informational purposes only. No guarantee is made regarding their completeness or accuracy. Construction projects, traffic, or other events may cause actual conditions to differ from these results. Map and traffic data 2013 NAVTEQ®

#### Coverage Legend Definitions

**Best:** Signals are strongest in areas shown in dark orange and should be sufficient for most in-building coverage. However, in-building coverage can be adversely affected by the thickness and/or construction type of walls or your location in the building (for example, in the basement in the middle of a building with multiple walls). This AT&T-owned wireless network provides 3G and 2G service.

**Good:** The areas shown in medium orange should support on-street or in-the-open coverage, most in-vehicle coverage and some in-building coverage. This AT&T-owned wireless network provides 3G and 2G service.

**Moderate:** The signal should be strong enough to support on-street or in-the-open coverage in areas shown in light orange. However, signals may not be strong enough for in-vehicle or in-building coverage. This AT&T-owned wireless network provides 3G and 2G service.

**Partner:** The areas shown in tan depict coverage provided by unaffiliated carriers. In these areas, the signal should be strong enough for on-street or in-the-open coverage, but may not be sufficient for in-vehicle or in-building coverage.

**Requires 3G Handset:** To access coverage in the areas shown in a striped pattern, you'll need a 3G-capable device and eligible rate plan. Like all coverage, it can be adversely affected by distance from cell site, weather, foliage, tower congestion, and other factors. You'll know you're in an AT&T 3G coverage area when the 3G network indicator displays beside the signal bars on your phone.

**The Best COVERAGE**

A phone is only as good as the network it's on.\*

Verizon's super-fast 4G LTE network is the most reliable and in more places than any other 4G LTE network.

- Only Verizon's 4G network is 100% LTE.
- Covers over 97% of Americans.
- 2X the 4G LTE coverage of any other network.

Seeing is believing. Compare Verizon 4G LTE coverage to other 4G LTE networks.
