My name is Doug Lucas and I have property that abuts to where they are putting the wind farms in Greenwich township. I own my property free and clear,, served in the army and also as a police officer... I now own Full Throttle Literary Agency and am 100% for this project. I have never seen a town that can not understand development. People against this project have created a bigger environmental issue, they caused than the wind farm will make.

Please disregard the stupidity of a people stuck in the stone ages and are afraid of anything they do not understand... It is time for our planet to create novel energy production.... Put them all in my back yard..
