ATTN: Public Utilities Commission of Ohio
RE: Case No. 14-0841-EL-SSO

Dear Sirs,

We are submitting this letter to voice our concern over the PUCO providing bailouts to energy companies, including Duke Energy. We are opposed to bailouts that allow energy providers to continue operating inefficient coal plants - the same plants that are sending toxic pollutants into our environment, when cleaner and more efficient methods already exist.

Our family is very concerned about pollutants spilling into our state's environment and will stand in support of any effort that moves our the great state of Ohio closer to producing clean energy as soon as possible.

We need to hold energy companies accountable and require them to reduce toxic pollutants AND provide energy services that do not force consumers to pay higher and higher rates for energy that is produced in outdated and dangerous methods.

Please do not provide bailouts to companies that are gouging their customers to please shareholders and pad their own wallets. My family simply cannot afford it.

Most sincerely,

Glenn & Marcene Nichols
5767 Thornberry Court
Mason, OH 45040

Public Utilities Commission of Ohio,

My family and I care about reducing toxic pollution and saving money on our electric bills by supporting clean energy instead. Why should we pay more money for updated and expensive coal plants? So their shareholders can deepen their pockets while their customers pay more money for updated coal plants. PLEASE DENY THEIR REQUEST!

Attention Case No. 14-841-EL-SSO

180 East Broad Street

Columbus, OH 43215

My family and I care deeply about reducing toxic pollution and saving money on electric bills by supporting clean energy instead. We DO NOT feel we should have to pay for Duke to continue to pollute our air with outdated coal technology.

We feel strongly that our legislators need to end the freeze on Ohio's renewable energy standards.

Sincerely,

SEPTEMBER 11, 2014

TO PUCO; CASE NO. 14-0841-EH-SO

- I would like to reduce air pollution, save \$ on my electric bills and urge utilities to provide cleaner energy sources for our electricity.
- The "bailout," having Ohio customers pay Duke for their old coal plants, is not appropriate.
- Duke Energy should be held accountable to their customers - not solely to its shareholders.

Public Utilities Commission of Ohio:

I care about the source of our energy. I want to reduce air pollution, urge our utilities to provide cleaner, renewable energy sources for our electricity, and make decisions with our future and our sustainability in mind. Duke Energy should be held accountable to their customers.

Sincerely,

Frances Harty

I care about this issue because
I want to reduce air-pollution, save
money on my electric bill & urge our
utilities to provide cleaner energy sources
for our electricity

Bethany McClain

Mason, OH 45040

PUCO

I want to reduce air pollution,
save money on my electric bill &
urge our utilities to provide cleaner
energy sources for our electricity.
We need Duke Energy to be held
accountable to their customers - not
share holders. This lawsuit would
cause all of our rates to go up
no matter what energy company we

D-y from.

Sincerely,

Kate Wheeler
