MidAmerican Energy Company ("MidAmerican") currently provides competitive retail electric and gas services to approximately 34,000 customers through its Unregulated Retail Services division. MidAmerican is registered to serve electric customers in the following markets:

<u><i>Service Territory</i></u>	<u><i>State</i></u>
Commonwealth Edison	Illinois
Ameren	Illinois
Baltimore Gas & Electric	Maryland
Delmarva Power	Maryland, Delaware
Potomac Edison	Maryland
Potomac Electric Power Co.	Maryland, District of Columbia

West Penn Power	Pennsylvania

As part of providing competitive retail electric services in these markets, MidAmerican's Unregulated Retail Services division has developed extensive understanding and awareness of the specific requirements for each region. Specific scheduling, planning, registration, settlement, operation rules, and operating guidelines are uniquely defined by the incumbent utility, state, and/or reliability region. MidAmerican is able to comply with and address these differing requirements by:

1. Maintaining a staff of dedicated, experienced and capable individuals.
2. Writing and maintaining extensive operating and compliance procedures whereby expectations, process, and comprehension is documented. These procedures act as a solid foundation for performing tasks and help to train new staff.

3. Monitoring changes filed and approved at public utility commissions. MidAmerican monitors each incumbent tariff and has a process in place whereby changes are communicated throughout MidAmerican's Unregulated Retail Services division when they occur.
4. Participating in ongoing operational work groups within each state to address problems and concerns.

MidAmerican's Unregulated Retail Services division staff performs the necessary tasks in order to provide electric supply to its competitive electric service customers. Some of the tasks MidAmerican performs for its competitive customers are

- Profiling and forecasting customer usage,
- Scheduling,
- Calculating and scheduling energy losses,
- Procuring energy supply, capacity and Renewable Energy Credits,
- Partnering with demand response providers,
- Procuring transmission service,
- Procuring ancillary services,
- Balancing and settling with the incumbent utilities,
- Billing Services, and
- Customer Service.

MidAmerican's Unregulated Retail Services division procures wholesale electric and gas supply through its internal trading team. The trading team procures energy at the best competitive market price.

MidAmerican currently has 24-hour on-call support staff to ensure coordination with control centers for scheduling changes, reserves implementation, curtailment orders and interruption plan implementation.

MidAmerican Unregulated Retail Services division has completed four external reviews finding no major violations regarding FERC, NERC, PJM and MISO tariffs and rules.

Providing competitive electric provider services involves meeting requirements at three different levels: the incumbent utility, the state, and the reliability region. In each competitive market in which it has entered, MidAmerican has complied with these requirements.

As an experienced competitive retail electric provider, MidAmerican has experience in purchasing, maintaining, and reporting capacity requirements.

MidAmerican already tracks and reports the environmental characteristics of the electric energy provided to its competitive customers. Where MidAmerican is obligated to purchase renewable energy, the process for procuring and documenting renewable energy is very similar to procuring and documenting non-renewable energy and is well within MidAmerican's current capabilities.

MidAmerican's success in deregulated electric markets is driven by its commitment to customer service and its position as a long-term competitive retail electric provider.

Beginning in 2001, the Unregulated Retail Services division made significant capital investments in automating business processes. Data transfers between internal departments and with local utilities are highly automated to ensure both quality and efficiency. These intense automation efforts give MidAmerican the ability to quickly respond to customer requests while maintaining all-time high customer satisfaction ratings in Quarter One of 2014.

MidAmerican assigns an individual account manager to medium to large commercial customers to assist customers in managing their energy goals. For small commercial and residential customers, MidAmerican's customer service team is currently available Monday through Friday, 7 A.M. to 5 P.M. C.S.T.

MidAmerican currently acts as a point of contact for its competitive retail electric energy customers in all active states. MidAmerican's Unregulated Retail Services division call center personnel are trained to respond to customer outage and emergency requests. Further, MidAmerican provides emergency and contact information to its competitive retail customers through bill messaging.

MidAmerican currently provides telephone customer support services via a toll-free number 800-432-8574, Monday through Friday excluding holidays, 7 A.M. to 5 P.M. C.S.T., through its unregulated call center support staff. Additional customer service support is offered via email at web address "Billing-Retail_CS@midamerican.com" and via voice messaging through MidAmerican's toll-free customer service number. In order to ensure a high degree of confidence in energy scheduling, MidAmerican provides its customers with a 24-hour contact, telephone number 515-979-1021, for reporting significant unplanned load changes.

MidAmerican Energy Company has no existing, pending or past rulings, judgments, contingent liabilities, impending revocation of authority, regulatory investigations, or any other matter of a material nature that could adversely impact its financial or operational status or which would adversely impact its ability to serve as a Retail Generation Provider in the State of Ohio.

Credit Capacity Summary

This credit rating was assigned because of D&B's assessment of the company's creditworthiness. For more information, see the D&B Rating Key

D&B Rating : ---

The blank rating symbol should not be interpreted as indicating that credit should be denied. It simply means that the information available to D&B does not permit us to classify the company within our rating key and that further enquiry should

be made before reaching a decision. Some reasons for using a "-" symbol include: deficit net worth, bankruptcy proceedings, insufficient payment information, or incomplete history information.

Below is an overview of the company's rating history since 11-26-2002

D&B Credit Limit Recommendation

Conservative credit Limit 1,000,000

Aggressive credit Limit: 1,000,000

Risk category for this business : **LOW**

The Credit Limit Recommendation (CLR) is intended to serve as a directional benchmark for all businesses within the same line of business or industry, and is not calculated based on any individual business. Thus, the CLR is intended to help guide the credit limit decision, and must be balanced in combination with other elements which reflect the individual company's size, financial strength, payment history, and credit worthiness, all of which can be derived from D&B reports.

Risk is assessed using D&Bs scoring methodology and is one factor used to create the recommended limits. See Help for details.

Financial Stress Class Summary

The Financial Stress Score predicts the likelihood of a firm ceasing business without paying all creditors in full, or reorganization or obtaining relief from creditors under state/federal law over the next 12 months. Scores were calculated using a statistically valid model derived from D&Bs extensive data files.

The Financial Stress Class of 2 for this company shows that firms with this class had a failure rate of 0.09% (9 per 10,000), which is lower than the average of businesses in D & B's database

Financial Stress Class : 2 (Lowest Risk:1; Highest Risk:5)

Lower than average risk of severe financial stress, such as a bankruptcy or going out of business with unpaid debt, over the next 12 months.

Probability of Failure:

Risk of Severe Financial Stress for Businesses with this Class: 0.09 % (9 per 10,000)

Financial Stress National Percentile : 88 (Highest Risk: 1; Lowest Risk: 100)

Financial Stress Score : 1549 (Highest Risk: 1,001; Lowest Risk: 1,875)

Average Risk of Severe Financial Stress for Businesses in D&B database: 0.48 % (48 per 10,000)

The Financial Stress Class of this business is based on the following factors:

Low proportion of satisfactory payment experiences to total payment experiences.

UCC Filings reported.

High number of inquiries to D & B over last 12 months.

Notes:

The Financial Stress Class indicates that this firm shares some of the same business and financial characteristics of other companies with this classification. It does not mean the firm will necessarily experience financial stress.
 The Probability of Failure shows the percentage of firms in a given Class that discontinued operations over the past year with loss to creditors. The Probability of Failure - National Average represents the national failure rate and is provided for comparative purposes.
 The Financial Stress National Percentile reflects the relative ranking of a company among all scorable companies in D&B's file.
 The Financial Stress Score offers a more precise measure of the level of risk than the Class and Percentile. It is especially helpful to customers using a scorecard approach to determining overall business performance.

Norms	National %
This Business	88
Region: WEST NORTH CENTRAL	76
Industry: INFRASTRUCTURE	43
Employee range: 500+	61
Years in Business: 11-25	68

This Business has a Financial Stress Percentile that shows:

- Lower risk than other companies in the same region.
- Lower risk than other companies in the same industry.
- Lower risk than other companies in the same employee size range.
- Lower risk than other companies with a comparable number of years in business.

Credit Score Summary

The Commercial Credit Score (CCS) predicts the likelihood of a business paying its bills in a severely delinquent manner (91 days or more past terms), obtaining legal relief from its creditors or ceasing operations without paying all creditors in full over the next 12 months.
 The Credit Score class of 2 for this company shows that 2.5% of firms with this class paid one or more bills severely delinquent, which is lower than the average of businesses in D & B's database.

Credit Score Class : 2 Ⓢ Lowest Risk:1; Highest Risk :5

Incidence of Delinquent Payment

Among Companies with this Classification: **2.50 %**
 Average compared to businesses in D&B's database: **10.20 %**
 Credit Score Percentile : **86** (Highest Risk: 1; Lowest Risk: 100)
 Credit Score : **567** (Highest Risk: 101; Lowest Risk: 670)

The Credit Score Class of this business is based on the following factors:

- Proportion of past due balances to total amount owing
- Financial ratios
- Proportion of slow payments in recent months
- Evidence of open suits

Notes:

The Commercial Credit Score Risk Class indicates that this firm shares some of the same business and financial characteristics of other companies with this classification. It does not mean the firm will necessarily experience severe delinquency.
 The Incidence of Delinquent Payment is the percentage of companies with this classification that were reported 91 days past due or more by creditors. The calculation of this value is based on D&B's trade payment database.
 The Commercial Credit Score percentile reflects the relative ranking of a firm among all scorable companies in D&B's file.
 The Commercial Credit Score offers a more precise measure of the level of risk than the Risk Class and Percentile. It is especially helpful to customers using a scorecard approach to determining overall business performance.

Norms	National %
This Business	86
Region: WEST NORTH CENTRAL	65
Industry: INFRASTRUCTURE	32

MidAmerican Energy Company

EXHIBIT C-8
"Bankruptcy Information"

There have been no bankruptcy filings made by MidAmerican Energy Company or its parent organization within the most recent two years.

MidAmerican Energy Company

EXHIBIT C-9
"Merger Information"

MidAmerican Energy Company, the applicant, has not participated in a dissolution, merger, or acquisition within the five most recent years.

MidAmerican Energy Company ("MidAmerican") is a regulated electric utility with service territory in Illinois, Iowa, and South Dakota. Residential and non-residential customers in MidAmerican's Illinois Service territory have the choice to select an alternative retail electric supplier. MidAmerican currently either owns, leases, or purchases generation supply to service its regulated electric customer load.

MidAmerican is a transmission-owning member of the Midcontinent Independent System Operator, Inc. ("MISO") and owns an extensive transmission system within the MISO footprint. Most of MidAmerican's generation resources and regulated retail load is also located within the MISO footprint. MidAmerican participates in the MISO energy market.

MidAmerican, through its Unregulated Retail Services division, provides electric energy supply to customers who have chosen MidAmerican as their unregulated electric supplier in Illinois, Ohio, Michigan, Maryland, Delaware, the District of Columbia, Texas, and Pennsylvania. Electric energy is procured from third party suppliers by the Unregulated Retail Services Trading group.

Unregulated Retail Services is responsible for forecasting and scheduling its electric energy load in each service territory separately. Additionally, Unregulated Retail Services is responsible for calculating and supplying energy losses, procuring ancillary transmission services, and settling with the individual Regional Transmission Organizations (RTO) the difference between scheduled and actual customer usage.

MidAmerican will continue to purchase electric energy supply in order to meet its unregulated customers' load. Electric energy forecasting and scheduling will continue to be performed by MidAmerican for its customers.

MidAmerican has extensive operational experience serving retail energy customers.

Procurement Process

Upon the execution of an agreement with MidAmerican, the operations team will acquire firm supply through Unregulated Retail Services' internal trading desk. MidAmerican partners with a variety of wholesale supply sources to serve retail load in Ohio. Through its internal trading desk, MidAmerican will purchase wholesale supply from the supplier(s) that can provide the optimal solution of price and service for its customers.

Risk Management

MidAmerican's Risk Management department has established and oversees a set of policies and procedures to govern the Unregulated Retail Services' transaction activities. The intent of the policy is to define and specify the controls and management responsibility associated with such activities; and to provide a framework in which business unit management can maintain a portfolio of products, services and other transactions within pre-defined risk parameters. The policy and associated procedures are designed to protect both MidAmerican and the customers MidAmerican serves.

Operational practices specifically designed to reduce risk exposure for customers include

- Electronic interfaces with the utility for usage and invoicing data to ensure accuracy and timeliness contributing to MidAmerican's bill accuracy rate of over 98%.
- Mark to market and VAR positions are reviewed daily, validating all operations are within defined risk management procedures, thereby minimizing exposure to wholesale market risk.
- Monthly evaluation of scheduling and balancing procedures to validate and refine the prediction of future forecasts. MidAmerican will identify key swings in usage patterns and work with individual customers as appropriate to meet new load requirements.

Customer Service

Customer Satisfaction:	99% of its current customers would recommend MidAmerican.
Billing Services:	MidAmerican maintains a 98% bill accuracy rating and 98% of its invoices are produced within two days of receiving usage data.
Leadership and Experience:	MidAmerican has been serving customers as a regulated utility for over 140 years and retail customers since 1999. Backed by Berkshire Hathaway, Inc., MidAmerican focuses and invests in long-term opportunities that contribute to its future strength.

Based on MidAmerican's cumulative 2014 customer survey results and service level performance.
