RECEIVED-DOCKETING DIV  
2014 SEP 25 AM 9:13  
PUCO

Dear Sirs, I would like to register my objection to the proposal that Duke Energy and First Energy, be allowed to pass on their costs of complying with recent clean air legislation.

I care about toxic air and in particular air pollution, however Duke and First Energy are running a business, and any improvements should be paid for either from their profits or reducing the dividend paid to their stock holders.

Duke/first Energy are continually playing the same scene and are trying to pass all the costs onto the customers, for updating their plants to comply with the new regulation. These costs are the price of doing business, which any company has to set aside monies to pay for.

Duke/First Energy needs to be accountable to their customers, not their shareholders.

Please deny their request for a public bailout, for making changes to their out dated coal plants.

Sincerely, and respectfully, I await your reply.

William E. Attwood
