

Dear Duke Energy,

FILE you already charge an arm and a leg for prices now, so you want customers to pay for old coal plants. Thanks, but no thanks. Duke you should be held accountable for your actions and not take it out on customers. Find more efficient ways to please your share holders. My family cares about the waste and pollution we put into the environment while saving money on the electric bill. We have used Duke for many years, please don't let us switch because you keep raising rates. We pollute the environment enough now so we should not have to pay for continued use of outdated technology.

Thank you
Bellina Family
