September 18, 2014
Public Utilities Commission of Ohio
Attention Case No. 14-0841-EL-SS0
180 East Broad St.
Columbus, OH 45215

Dear Members of The Public Utilities Commission of Ohio,

I am a resident of the state of Ohio, a tax payer and a Mother of two small children. My husband and I work hard to provide a safe loving home for our family and teach our children to be responsible contributing members of society. We are deeply concerned over Duke Energy's and First Energy's unclean energy practices and their recent request for a bailout to pay for some of their most outdated and expensively run coal plants. Standards need to be set to make Duke Energy and First Energy update their facilities and ensure that the financial burden of these improvements isn't handed down to the public.

These old, expensive plants do not run efficiently and are terribly unsafe for the environment. Please, do something to ensure that families like ours aren't forced to pay higher energy rates while suffering increasingly poor air and water quality. Please, deny Duke Energy and First Energy's request for a bailout and put the financial burden for these long needed improvements on the appropriate party.

Sincerely yours,

Kiersten Anderson, AuD
Concerned Citizen, Mother and Taxpayer
