COMMENTS: To The Ohio Power Siting Board, I respectfully ask that you honor the request of the citizens of Greenwich to have a rehearing for the industrial wind facility that is coming to our community.

The state had mandated that the setback distance be moved from the adjacent landowner's residence to their property line. It is unethical and unfair to grandfather this project in under the old setback rules. There is obviously a reason the law was changed and I ask you not to inflict the old setback limit on this community that has been found to create problems for nearby residences. Please honor your commitment to protect the citizens of this state.

Sincerely,
Jessica Williams
