COMMENT DESCRIPTION:

please file opposition comment under case number 14-0841-el-ss0

The Public Utilities Commission of Ohio should not support a bailout of the stranded costs of Duke Energy. The effects of the particulates and other air pollutants impacting our physical health and the environment is well documented. Coal energy spews air pollution that increases

the rates of asthma, copd, and other respiratory ailments. A bail out of Duke for their stranded costs assists Duke in harming public health and in raising health care costs in Ohio.

A bailout also will have a negative impact on the market. These plants are not competitive and the funds used to bail out Duke needs to be invested in cleaner , more economic alternatives. The puco needs to get out of the way of market economics and not support a bailout to Duke. Bailing out companies that are killing us and robbing of us of future through climate change is unconscionable. Please do not proceed forward with a bailout
