**Re: Letter of Notification of Compliance for Oregon Clean Energy, LLC,  
Case No. 12-2959-EL-BGN**

Dear Ms. McNeal:

The May 1, 2013 Opinion, Order, and Certificate approving Oregon Clean Energy, LLC's ("Oregon") Certificate of Environmental Compatibility and Public Need to Construct an Electric Generation Facility ("Certificate") and the March 15, 2013 Second Supplement to Application established a set of conditions and supplemental commitments as part of the Certificate.

Specifically, in part, **Commitment #14**, which included in the Second Supplement filed on March 15, 2013, requires that:

**Prior to commencement of construction activities that require transportation permits, the Applicant will obtain all such permits. The Applicant will coordinate with the appropriate authority regarding any temporary or permanent road closures, lane closures, road access restrictions, and traffic control necessary for construction and operation of the proposed facility. Coordination will include, but not be limited to, the county engineer, Ohio Department of Transportation, local law enforcement, and health and safety officials. This coordination will be detailed as part of a final traffic plan submitted to Staff prior to the preconstruction conference for review and confirmation that it complies with this requirement.**

This letter is to inform the OPSB Staff that Oregon is in compliance with providing the Staff information concerning the road coordination required prior to the preconstruction meeting. Specifically, Oregon has commenced coordination of heavy-haul routes to the site with project subcontractors, including Biggie Crane & Rigging, Mammoet, and Erickson Rigging. A map

of these routes is attached to this letter as Attachment A. Additionally, coordination with the Ohio Department of Transportation has been initiated in support of preparation of the routes.

If you have any questions please call at the number listed above.

Sincerely,

A handwritten signature in cursive script, reading "Sally W. Bloomfield".

Sally W. Bloomfield
