Subject: Greenwich Windpark, Case Number: 13-0990-EL-BGN

Mr. Lay,

Thank you for contacting the Ohio Power Siting Board. Your comments below will be filed in the record for case number 13-0990-EL-BGN.

As you know, on October 25, 2014, the Board authorized Greenwich Windpark to construct up to 25 wind turbines in Greenwich Township, subject to 53 conditions. An application for rehearing filed by Omega Crop Company on September 23, 2014 remains under consideration by the Board.

You may be interested in reviewing the Board's Opinion, Order, and Certificate as well as the Staff Report of Investigation. Both the order and the staff report discuss turbine setback.

If you would like to discuss these issues in further detail, please do not hesitate to contact me at the number below.

Sincerely,

Matt Butler

COMMENT DESCRIPTION:

Case No. 13-0990-EL-BGN I'm sending this Public Opinion asking for a rehearing of the proposed Greenwich Windpark. Seems that there are more than one error in the application that was approved by the OPSB. First is the set back distances that were waived by the board even though the law states otherwise, the second is in the following statement "In its own filing, which urges the board to reject Omega's request for another hearing, Greenwich Windpark argues that it cleared all of the variances with neighboring property owners". At no time during this process have my mother, E. Eileen Lay or Myself Jerry A. Lay (son & durable Power of Attorney) ever received a letter, waiver or notification about the setback distance from our property. Evidently the administrators of Greenwich Windpark have a habit of lying to get what they want. The only letter we have received was in March of 2014 telling us about the proposed windpark but that letter just stated that if we needed more information to contact Monica Jensen, which I did and there was nothing stated to me in that conversation about any setback requirements or a waiver eliminating the setback requirement. Not that I would have waived my right to an Ohio law pertaining to the distance the turbines could be placed from our residence and/or property. Also the map showing all the residences within or near the proposed windfarm is in error. We are the last residence before getting to Ninevah Road on Us Hwy 224 E, but our house is not designated on the map line. The map shows 5 residences with frontage directly on US Hwy 224 E with a 6th home that has an easement since it sits well off the road. Our home is not listed or noted on the map and we are adjacent property owners. I pray you read these comments and commit to another hearing due to the errors in Greenwich Windfarm LLC's failure to submit all the proper information in their application process and DO NOT have waivers from ALL the adjacent property owners. Thank-you for your time .

E. Eileen Lay (adjacent property owner) Jerry A Lay (Live in caregiver, son & durable Power of Attorney)
