COMMENTS: Dear OPBS:

We, in this community, REQUEST ANOTHER HEARING ON THE PROPOSED WIND TURBINES slated for our midst. I hope you at the OPSB, because of your power to approve or turn down these projects, will please reconsider the many negative effects these huge turbines will have on the majority of property owners near their proposed locations, as compared with their marginal advantage.

The wind generating industry's main interest is profits, much of it-tax payer money. In our area-(marginal wind) I understand they will not ever pay for themselves with electricity generated. Please don't burden us with these monsters for the rest of our lives just because it's currently the PC thing to do.

Sincerely: Concerned property owners: Art and Jeannie White
