Subject: Case number 13-0990-EL-BGN

Mr. Stevens,

Thank you for contacting the Ohio Power Siting Board. Your comments below will be filed in the record for case number 13-0990-EL-BGN.

As you know, on October 25, 2014, the Board authorized Greenwich Windpark to construct up to 25 wind turbines in Greenwich Township, subject to 53 conditions. An application for rehearing filed by Omega Crop Company on September 23, 2014 remains under consideration by the Board.

You may be interested in reviewing the Board's Opinion, Order, and Certificate as well as the Staff Report of Investigation filed on April 18, 2014. Both the order and the staff report discuss turbine setback.

Sincerely,

Matt Butler

COMMENT DESCRIPTION:

13-0990-EL-BGN This is simply sickening that anyone would have to fight for the peace and quite of our houses and property lines from our neighbor profits. They will reap the rewards and the turbines will destroy our lives as we know it. The new SETBACKS are being put into place for a reason so lets adhere to them and mostly lets not ignore the old setbacks. It seems that those laws are also being ignored in some cases. At this point its only the proper thing to do is a rehearing for the residents of Greenwich and let us be heard.

I do not want a Wind turbine in my back yard. WOULD YOU? Regards M. Stevens
