INTER-OFFICE COMMUNICATION

TO: John D. Borrows  
FROM: E. J. Burrows EJB  
DATE: March 14, 1977  
SUBJECT: Case No. 77-83-WW-AAC, Arrowhead Hills Utilities Corporation  
Application to Amend Certificate of Public Convenience and  
Necessity.

The Rates and Tariffs Section has reviewed the above application as well as the preceding applications, Cases No. 74-577-W and No. 75-778-WW-AAC.

The current tariff was approved July 11, 1975 after extensive revisions were made in response to our suggestions.

The additional treatment facilities required to properly service lots 201 through 273 have been installed as required and approved by the Ohio EPA.

Therefore, we do not believe that it is necessary to take a position with respect to this application.
